~~(3)~~*(2)* The commission shall decide if there is workable competition in the electricity supply market by determining whether competition is sufficient to inhibit monopoly pricing or anticompetitive price leadership. The commission may approve rates and charges for electricity distribution and transmission services based on alternative forms of ratemaking such as performance-based ratemaking, on a demonstration by the public utility that the alternative method complies with this chapter, and on the public utility's transition plan.

Up to $75,000 of the amount of the appropriations in item 6f is contingent upon receiving a transfer of the equivalent amount of funds from the department of public health and human services and is restricted to acquiring vehicles and other equipment used to provide services to the transportation disadvantaged.

All federal special revenue appropriations in the department are biennial appropriations.

It is the goal of the department to assist and help provide the opportunity for current or previous families achieving independence in Montana (FAIM) participants to receive highway construction jobs. The department's goal is for 200 FAIM participants to be employed on highway construction jobs by the end of fiscal year 2000 and for 300 FAIM participants to be employed on highway construction jobs by the end of fiscal year 2001.

It is the goal of the department to assist and help provide the opportunity for current or previous FAIM participants from tribal reservations to receive highway construction jobs that are located off of tribal reservations. The department's goal is for 100 FAIM tribal member participants to be employed on off-reservation highway construction jobs by the end of fiscal year 2000 and for 200 FAIM tribal member participants to be employed on off-reservation highway construction jobs by the end of fiscal year 2001.

The legislature has considered and chosen not to fund the production of Montana state highway maps with revenue from highway users fees and motor fuel taxes. It is the intent of the legislature that funding for Montana state highway maps come from lodging facilities use tax revenue in the department of commerce.

To implement efficiencies within the department and to reflect the elimination of the OFLT, the department is to identify to the office of budget and program planning and the legislative fiscal division the position numbers of 12 FTE at the beginning of fiscal year 2000 and an additional 17 FTE at the beginning of fiscal year 2001 for elimination. The department shall provide this information by July 1 each fiscal year.												
Because of the elimination of the statutory appropriation of tobacco education fees and the de-earmarking of the fees to the general fund by House Bill No. 69, item 1 has been increased by $750 in general fund money in fiscal year 2000 and by $750 in general fund money in fiscal year 2001. If House Bill No. 69 is not passed and approved in a form that eliminates the statutory appropriation and de-earmarks the fees, then the general fund amounts in item 1 are reduced by $750 in fiscal year 2000 and by $750 in fiscal year 2001.

The department shall present a report to the appropriate legislative committee every 6 months of the 2001 biennium on the governor's council on children and families. The report must contain, at a minimum, the goals, functions, expenditures, and funding of the council.

Expenditures for all provider rate increases approved by the legislature must be limited to the dollar amounts appropriated rather than a percentage increase. The department will be in compliance with this provision if:

(1) it estimates the total cost for each medicaid service category in June prior to the beginning of each fiscal year of the 2001 biennium; and

(2) the percentage increase or base adjustments approved by the department are limited to the dollar amount appropriated for each provider rate increase.

The department shall distribute the funds in items 2b, 8b, and 9a in a way that provides reasonable assurance that the funds are used solely for direct care wage and benefit increases. Not all providers must receive the same rate of increase each year of the biennium. Funds appropriated in items 2b, 8b, and 9a must be used for direct care worker wage increases and family foster care rate increases. Funds in items 2b, 8b, and 9a may not be used to fund other programs.

The department may add FTE instead of contracting for services if it certifies to the office of budget and program planning that FTE are more cost-effective than contracting. FTE added through this language are modified FTE and may not be included in the 2003 biennium base budget.

Items 2, 4, 6, and 8 have been reduced by $304,433 in total funds in the 2001 biennium to reflect a reduction in the personal service budgets of these divisions. It is the intent of the legislature that the following positions be eliminated from the department because they have been vacant at least 10 months:

Position No.	Title	Last Filled
00430	case aide	06/20/97
05200	child support enforcement technician	12/12/97

All state and federal prevention funds identified in the unified prevention budget under the department, department of labor and industry, department of justice, office of public instruction, board of crime control, department of corrections, office of state coordinator of Indian affairs, and children's trust fund must be reviewed and commented on by the interagency coordinating council for state prevention programs (ICC) before being expended.

The department shall place all goals, benchmarks, and objectives for each division on the department's website. Beginning July 1, 1999, and every 12 months thereafter, the divisions shall review and report on the website their progress in meeting their goals, benchmarks, and objectives.

Benefits for temporary assistance for needy families (TANF) are set at 40.5% of the poverty rate for each year of the biennium.

The provider rate increase for child care should reflect local markets.

If families achieving independence in Montana (FAIM) caseloads increase to a level greater than the projected level of 7,612 for the 2001 biennium or if the department is unable to meet federally mandated work participation requirements because of the lack of resources, the department may access excess TANF funds held by the federal government and referred to by the state to be Montana's "TANF reserve" to fund services that further the goals of FAIM. Therefore, there is appropriated TANF reserve funds up to $8.35 million for the biennium. Prior to accessing these funds, the department shall review with the office of budget and program planning current FAIM caseload statistics and trends in caseload.

The department shall present a plan to the 57th legislature to create a uniform statewide system of funding for the TANF maintenance of effort, eligibility determination for cash assistance, food stamps, and medicaid programs, and foster care program costs. This plan must provide a predictable and adequate source of funding und eliminate the historic distinction in funding human services costs between assumed and nonassumed counties. The department shall include county commissioners and select members of the appropriate legislative committee in development of the plan.

Item 1 includes $493,522 in general fund money in fiscal year 2000 and $493,523 in fiscal year 2001 to replace lost federal matching funds for food stamps, medicaid, and the former aid to families with dependent children. The department is appealing the loss of these federal funds. If the department is successful in the appeal, the appropriation in item 1 is reduced by $493,522 in general fund money in fiscal year 2000 and $493,523 in fiscal year 2001.

Item 1 includes a reduction of $1,750,000 in general fund money in fiscal year 2000 and $2,105,177 in fiscal year 2001 and an increase in federal TANF funds of a like amount in each fiscal year. This funding switch is contingent on passage of House Bill No. 470.

Contingent upon passage and approval of House Bill No. 551, item 1 must be reduced in proportion to the number of Native American tribes authorized to operate their own TANF program, up to $6,706,697 in federal special revenue funds in both fiscal year 2000 and fiscal year 2001.

Because of the elimination of the statutory appropriation for low-income energy assistance and home weatherization in House Bill No. 69, item 1c appropriates $299,991 in federal special revenue funds in fiscal year 2000 and $299,991 in federal special revenue funds in fiscal year 2001. If House Bill No. 69 is not passed and approved in a form that eliminates the statutory appropriation, then ths federal special revenue appropriations in item 1c are void.

Item 1d is for the processing of donated food to be used by the Montana food bank network.

The human and community services division is authorized to use up to $2.96 million in TANF funds for the biennium for expenditures related to the following efforts:

(1) The division shall increase job training, recruitment, and support service efforts in order to secure highway construction or equivalent paying jobs for 200 FAIM recipients in fiscal year 2000 and another 300 FAIM recipients in fiscal year 2001. The dollars must follow the client.

(2) The division shall provide FAIM recipients funds to purchase items including but not limited to car insurance, car repairs, gasoline, and special work clothes.

The division shall direct up to $1.5 million of the $2.96 million toward efforts specified in subsection (1). If the division is not able to use all of the $1.5 million for those efforts, the division may redirect remaining funds to the purpose specified in subsection (2).

The division shall report progress every 6 months on the department's internet virtual pavilion site.

TANF block grant funds of $100,900 each year of the 2001 biennium are appropriated for the purpose of enhancing the adult basic education program for FAIM financial assistance participants. The funds are to be used to provide adult basic education, adult literacy programs, and learning disability assessment, identification, and followup services for FAIM financial assistance participants.

It is the intent of the legislature that the department provide quarterly reports beginning July 1, 1999, to the appropriate legislative committee, as identified in Senate Bill No. 11, and make the reports available on the internet through the department's virtual pavilion. The reports must include:

(1) the human and community services division's means for identifying FAIM recipients who may be qualified for social security disability and supplemental security income (SSI);

(2) the number of FAIM recipients who might meet SSI criteria:

(3) the division's progress in getting people moved from FAIM to SSI; and

(4) the number of FAIM recipients actually moved from FAIM to SSI.

The department may use, in addition to other FAIM dollars, up to $300,000 in TANF funds for the biennium to determine SSI eligibility, including psychological examinations, and to move those who are SSI eligible from FAIM to SSI.

The goal for the number of TANF cash assistance cases is 4,900 in fiscal year 2000 and 4,400 in fiscal year 2001. To meet these goals, the department shall:

(1) assist a minimum of two tribes in leaving the state's FAIM welfare reform program and assist them in running their own welfare reform program;

(2) assist TANF clients in obtaining better paying jobs in highway construction or equivalent paying jobs; and

(3) move both tribal and nontribal FAIM clients that meet social security disability and SSI criteria from FAIM to SSI.

Contingent on the receipt of the social security contribution account reversion to the general fund under 19-1-602(4), general fund money of $17,000 is appropriated in fiscal year 2000 for the Montana food bank network to use as setup funds in the use of Montana state prison's meat processing plant for the processing of meat donated to the Montana food bank. This money is to be used for this purpose only.

The department may not use general fund money to support a program developed to facilitate noncustodial parents' access to their children. It is the intent of the legislature that the child and family services division coordinate participation in this program with the child support enforcement division.

The legislature approved funding for 2 new FTE in item 2. These 2 FTE may not be transferred to any other division.

Item 2 includes a reduction of $16,051 in general fund money in fiscal year 2000, a reduction of $3,159 in state special revenue funds in fiscal year 2000, a reduction of $9,224 in federal special revenue funds in fiscal year 2000, a reduction of $19,261 in general fund money in fiscal year 2001, a reduction of $3,791 in state special revenue funds in fiscal year 2001, and a reduction of $11,069 in federal special revenue funds in fiscal year 2001. These reductions are contingent upon the passage and approval of House Bill No. 180.

Item 2 has been reduced by $352,903 in total funds in the 2001 biennium, including $204,373 in general fund money, to reflect a reduction in the personal services budget of this division. It is the intent of the legislature that position number 92303 be eliminated from the department because 5 of the 6 FTE in position 92303 are also funded under position number 99972501.

Item 2c is contingent upon passage and approval of Senate Bill No. 258.

The department shall work with the supreme court to develop joint rules, regulations, and procedures for the foster care review process.

Item 4 includes general fund money of $655,367 in fiscal year 2000 and $667,379 in fiscal year 2001 to replace a shortfall in state special revenue from child support collections. This appropriation is one-time only.

Beginning July 1, 1999, and every 6 months thereafter, the child support enforcement division shall make a report available on the internet through the department's virtual pavilion on its progress in collecting child support on tribal reservations.

The child support enforcement division (CSED) may not charge the handling fee provided for under 40-5-210(3).

General fund costs of medicaid benefits may not exceed:

(1) a 2.5% annual compounded rate of growth in fiscal year 2000 from the fiscal year 1998 base amount of $99,317,700; and

(2) 3.5% in fiscal year 2001 from the fiscal year 1998 base amount of $99,317,700.

The department is authorized to use up to $50,000 of general fund money from other appropriations within the department for expenditures related to disease outbreaks and other public health emergencies that may occur during the 2001 biennium.

The department shall provide detailed information on the services provided and results of MIAMI programs on reservations to the appropriate legislative committee by September 1, 2000.

The department shall prepare and present a report to the appropriate legislative committee on activities funded by the federal abstinence education grant. The department should present the report at the first committee meeting convened after the end of fiscal year 2000. The report must:

(1) enumerate and explain how grant funds were expended by type of expenditure in fiscal year 1999 and fiscal year 2000;

(2) explain the status of training for communities and other entities;

(3) explain other information pertinent to federal grant requirements and outcomes; and

(4) identify measurable program goals and objectives for fiscal year 2001 and the 2003 biennium.

Item 5 includes $62,899,987 in fiscal year 2000 and $63,781,717 in fiscal year 2001 for medicaid-funded hospital services.

Funds in item 5a must be used to contract with public or private entities for the administration and provision of primary and preventive health care benefits to children who are uninsured and not eligible for medicaid benefits. To qualify, the family income may be no greater than 185% of the federal poverty level. Funds in item 5a may be allocated only to those programs that have established a statewide network of medical providers who have agreed to accept reimbursement at a rate lower than would normally be charged for their services. Funds in item 5a may not be used to pay the state share of children's health insurance program costs.

Implementation of the resource-based relative value scale (RBRVS) provider rate system must be phased in over the 2001 biennium. The department shall use funds in item 5b to raise rates paid to those codes that are paid the lowest percentage of medicare reimbursement. The department shall freeze reimbursement for all other procedure codes previously decreased under the phasein of the RBRVS reimbursement system at the fiscal year1999 level of reimbursement.

The department shall use $430,000 of funds each year of the biennium in item 5c to increase grants to local governments and communities.

Item 5d includes funds for a chronic disease epidemiologist FTE. If the federal grant funds supporting this position decline or are eliminated, the department shall reduce the FTE from its budget request for the 2003 biennium. Federal grants supporting this position include the behavieral risk surveillance grant, the diabetes control grant, the tobacco control grant, and the tumor registry grant.

If federal grant funds supporting item 5e decline or are discontinued, the department shall remove funding for the FTE supported by this federal grant in its 2003 biennium budget request.

Item 5f is contingent upon passage and approval of Senate Bill No. 81.

If the federal tumor registry grant is not received, it is the intent of the legislature that no general fund money be approved for tumor registry and that the general fund appropriation in item 7 be reduced by $77,810 in fiscal year 2000 and $77,810 in fiscal year 2001.

Item 7 includes $676,680 in fiscal year 2000 and $676,343 in fiscal year 2001 for laboratory services. It is the intent of the legislature that the department not increase fees if revenue is not sufficient to fund the amounts appropriated,

The disability services division is authorized to pursue up to $2 million in federal funding over the biennium to enhance and improve services to persons with developmental disabilities. These additional federal funds may be expended by the division on services as long as those actions do not require or commit the state to additional general fund expenditures beyond the amount appropriated for the 2001 biennium by the legislature for the developmental disabilities community.

Item 8 contains an appropriation of $7,581,094 in federal funds each year of the biennium for the Title XX grant. If the department receives less funds in the Title XX grant than the appropriated amount, the department shall transfer up to $2.3 million in general fund money over the biennium from medicaid appropriations in the department to the disability services division. General fund money transferred to offset the Title XX shortfall must be used to serve individuals being moved from state institutions to community services and individuals from the community waiting list.

Item 8 contains an appropriation of $7,581,094 in federal funds each year of the biennium for the Title XX grant. If the department receives less funds in the Title XX grant than the appropriated amount, up to $2.8 million in TANF funds for the biennium must be transferred to the disability services division. The TANF funds transferred to offset the Title XX shortfall must be used to serve individuals being moved from state institutions to community services and individuals from the community waiting list. The department shall use all of the $2.3 million in general fund money that the department is directed to transfer from medicaid appropriations in the department to the disability services division before using any transferred TANF funds.

Item 8 contains an appropriation of $7,581,094 in federal funds each year of the biennium for the Title XX grant. If the department receives less funds in the Title XX grant than the appropriated amount, $43,000 in general fund money is appropriated for fiscal year 2001 to implement a means test for TANF eligibility determination.

Provider, consumer, and department representatives of the strategic planning across Montana followup committee shall provide a written report every 6 months to the legislative fiscal division on the progress of the design and implementation of the individualized community support approach to service delivery in the developmental disabilities system.

The disability services division is directed to develop a proposal by June of 2000 to be reviewed by the children, families, health, and human services committee that considers the following options:

(1) moving individuals from the Montana developmental center and Eastmont human services center to community settings if it is determined that a person may benefit from services in a community setting and if the services appropriate for the person's needs are available;

(2) based on the population remaining at both institutions, determine if an institution could be closed;

(3) if an institution is proposed to be closed, explore and recommend alternative uses for that institution; and

(4) develop a reduction in force plan that takes into consideration a reasonable way to reduce the staff at the institutions through normal attrition and planned layoffs and calculate the cost for paying out sick leave, vacation, and severance pay.

Item 8 contains a general fund appropriation of $27,723 in fiscal year 2000 and $57,108 in fiscal year 2001 for anticipated increases by the board of regents in tuition of 4%. If the board of regents approves college tuition increases of less than 4%, the general fund appropriation is reduced a proportionate amount.

Up to $1 million of the general fund share from lien and estate recoveries pursuant to Title 53, chapter 6, part 1, in excess of the first $600,000, and up to $2 million in federal funds is appropriated over the biennium on a one-time basis in the amount of 50% to the medicaid home and community waiver program and 50% to the medicaid nursing home program. Lien and estate funds allocated to the medicaid nursing home program must be used for staff training, bonuses for direct care staff, or other one-time benefits for staff.

The department may supplement funds appropriated for nursing home rate increases with funds appropriated for increased nursing home bed days in order to address the increased staffing needs associated with caring for a more difficult nursing home patient population and to avoid inappropriate decreases in the department's current nursing home reimbursement formula, as long as total program expenditures do not exceed the appropriation for nursing homes.

Because of the elimination of the statutory appropriation of tobacco education fees and the de-earmarking of the fees to the general fund by House Bill No. 69, item 10 has been increased by $750 in general fund money in fiscal year 2000 and by $750 in general fund money in fiscal year 2001. If House Bill No. 69 is not passed and approved in a form that eliminates the statutory appropriation and de-earmarks the fees, then the general fund amounts in item 10 are reduced by $750 in fiscal year 2000 and by $750 in fiscal year 2001.

Money appropriated in item 10c may not be expended unless the department has given the 180-day notice of termination provided in the mental health access plan contract.

Money appropriated in item 10c may be used to implement the mental health care plan provided for in Senate Bill No. 534, contingent upon passage and approval of Senate Bill No. 534.

If Senate Bill No. 534 is not passed and approved, item 10 is increased by $58,926 in general fund money and $29,463 in federal special revenue funds in fiscal year 2000 and $55,593 in general fund money and $27,796 in federal special revenue funds in fiscal year 2001.

Funds in item 10d must be used to fund pilot community outpatient chemical dependency medicaid programs. Funds in item 10d may not be used for another purpose or transferred to other programs. The department shall provide an evaluation and documentation of outcomes of the pilot programs to the legislative finance committee no later than September 1, 2000.

The department shall incrementally implement Senate Bill No. 534, contingent upon passage and approval of Senate Bill No. 534.

The department shall institute copayments for persons served in the mental health managed care program as allowed under 53-6-131(10).

The department shall encourage successful contractors to also serve persons who need mental health services but who are not eligible for services under the state mental health managed care plan. The department shall encourage successful contractors to establish fee schedules at the discretion of the contractor to serve persons ineligible for services under the state mental health managed care plan.

The department shall provide for consumer involvement and input in developing requests for proposals, evaluating proposals, and implementing the mental health managed care contracts.

The department shall establish and include outcome measures in the mental health managed care contracts.

The department shall explicitly identify in its mental health managed care plan how the Montana state hospital will be integrated into the mental health managed care contracts, how all services provided by the Montana state hospital will be funded, and how rates and charges for all services at the Montana state hospital will be established. The department shall provide this information to the legislative finance committee and other appropriate legislative committees no later than July 1, 1999.

The department shall establish a process that allows for public input and comment. The process must specify defined times and opportunities for public input when interested persons may comment on any request for proposals for the mental health managed care program, related contracts that the department may let, state mental health managed care policies, transition to the mental health managed care program, implementation of the new program, and oversight of the program. The department shall consider public comment and input that it receives.

The department shall provide biweekly reports to interested persons and the public on the implementation of Senate Bill No. 534, contingent upon passage and approval of Senate Bill No. 534.

The office of the governor shall provide oversight of the implementation of Senate Bill No. 534, contingent upon passage and approval of Senate Bill No. 534.

In accordance with 17-8-103, the department may not spend more general fund money for mental health managed care services than was appropriated in [this act].

If the occupancy date for the new Montana state hospital is delayed beyond October 1, 1999, the department and the department of administration shall pursue the assessment of any penalties allowable under the construction contract because of contractor liability for delays. The department is appropriated up to $700,000 in state special revenue funds over the biennium from penalties collected from the contractor.

If Senate Bill No. 59 is not passed und approved, the appropriations in item 1g are void.

Item 2c is to be used to lease winter habitat for big game ou private lands. Owners of land leased with this money may not outfit on the leased land. This item is to be funded from the wildlife habitat account.

If Senate Bill No. 334 is not passed and approved, the appropriations in item 2e are void.

If Senate Bill No. 338 is not passed and approved in a form increasing upland game bird license fees and allocating the increase to the block management program, then the appropriations in item 2f are void.

For the 2001 biennium, the paddlefish roe program is to be funded entirely with proceeds from the sale of paddlefish roe and not subsidized from the general license account.

Because of the de-earmarking of recreational use fines by House Bill No. 69, item 4 has been reduced by $4,848 in state special revenue funds in fiscal year 2000 and by $4,848 in state special revenue funds in fiscal year 2001 and general fund amounts have been increased by the same amounts. If House Bill No. 69 is not passed and approved in a form that de-earmarks the state special revenue funds, then the general fund amounts in item 4 are reduced by $4,848 in fiscal year 2000 and by $4,848 in fiscal year 2001 and the state special revenue amounts are increased by the same amounts.

If House Bill No. 478 is not passed and approved, then the appropriations in item 5f are void.

No more than $30,000 each year of the appropriation provided in item 5a is to be used for the purpose of 87-1-247(2)(a).

The appropriation in item 6e is funded from state park trust interest and state park fees. If money is not sufficient to fund this and continuing appropriations, this appropriation has priority and the department shall delay expenditures from continuing appropriations. Of the amount appropriated in item 6e, $500,000 must be used at the Chief Plenty Coups state park to rehabilitate historical buildings, renovate the cemetery, bring the museum and displays up to museum standards, renovate park infrastructure, and curato historic artifacts. The remaining amount of $100,000 must be used at the Pictograph Cave state park to preserve and protect the pictographs and the pictograph wall.

Item 7e is contingent upon passage and approval of Senate Bill No. 381.

The department is to report to the natural resources and commerce appropriations subcommittee of the 57th legialature on projects funded with federal Sikes Act money and state match money. The report is to include an analysis of the viability for continuance of the program and a list of projects funded with the money.

The department shall attempt to keep its fiscal year revenue/cost ratio for timber sales at or above 2:1 by reducing timber sale costs or general administration costs of the timber sales program. The department shall report to the natural resources appropriations subcommittee of the 57th legislature on the revenue/cost ratio for the last 2 fiscal years and, if any ratio is below 2:1, shall explain to the subcommittee why costs were not reduced to obtain a ratio of at least 2:1.

The department is authorized to decrease state special revenue money in the underground injection control program and increase federal special revenue money by a like amount when the amount of federal EPA funds available for the program becomes known. Any federal special revenue funds are to be spent before state special revenue funds.

The department is appropriated up to $700,000 for the 2001 bienuium from the account established in 76-14-112 for rangeland loans during the 2001 biennium.

The department is appropriated up to $600,000 for the 2001 biennium from the state special revenue account established in 85-1-604 for the purchase of prior liens on property held as loan security as required by 85-1-618.

During the 2001 biennium, up to $1 million of funds currently in or to be deposited in the Broadwater replacement and renewal account are appropriated to the department for repairing or replacing equipment at the Broadwater hydropower facility.

During the 2001 biennium, up to $20,000 of interest earned on the Broadwater water users account is appropriated to the department for the purpose of repair, improvement, or rehabilitation of the Broadwater-Missouri diversion project.

During the 2001 biennium, up to $500,000 of funds currently in or to be deposited in the state project hydropower earnings account are appropriated for the purpose of repairing, improving, or rehabilitating department state water projects.

During the 2001 biennium, up to $100,000 of excess loan loss reserve money in the water pollution control state revolving fund is appropriated to make grants to aid in the feasibility of projects as anthorized in 75-5-1113(3)(b) of House Bill No. 74.

During the 2001 biennium, up to $100,000 of excess loan loss reserve money in the drinking water state revolving fund is appropriated to make grants to aid in the feasibility of projects as authorized in 75-6-224(3)(b) of House Bill No. 74.

Because of the de-earmarking of recreational use fines by House Bill No. 69, item 1 has been reduced by $4,848 in state special revenue funds in fiscal year 2000 and by $4,848 in state special revenue funds in fiscal year 2001 and general fund amounts have been increased by the same amounts. If House Bill No. 69 is not passed and approved in a form that de-earmarks the state special revenue funds, then the general fund amounts in item 1 are reduced by $4,848 in fiscal year 2000 and by $4,848 in fiscal year 2001 and the state special revenue amounts are increased by the same amounts.

Because of the de-earmarking of water adjudication fees by House Bill No. 69, item 2 has been reduced by $2,136 in state special revenue funds in fiscal year 2000 and by $2,057 in state special revenue funds in fiscal year 2001 and general fund amounts have been increased by the same amounts. Because of the elimination of the statutory appropriation for the Yellowstone ground water area water compact by House Bill No. 69, item 5 has been increased by $23,000 in federal special revenue funds in fiscal year 2000 and by $23,000 in federal special revenue funds in fiscal year 2001. If House Bill No. 69 is not passed and approved in a form that eliminates the statutory appropriation, then the federal special revenue amounts in item 5 are reduced by $23,000 in fiscal year 2000 and by $23,000 in fiscal year 2001.

Because of the de-earmarking of water adjudication fees by House Bill No. 69, item 5 has been reduced by $2,500 in state special revenue funds in fiscal year 2000 and by $2,500 in state special revenue funds in fiscal year 2001 and general fund amounts have been increased by the same amounts. Item 2c is contingent upon passage and approval of Senate Bill No. 164.

Item 2d is contingent upon passage and approval of Senate Bill No. 183.

If House Bill No. 260 is passed and approved, $65,000 each fiscal year of state special revenue money appropriated in House Bill No. 260 must be used for a cooperative development center at MSU-Northern.

Item 3c is contingent upon passage and approval of Senate Bill No. 342.

It is the view of the legislature that:

(1) the state of Montana has great potential for the growing of alternative crops;

(2) producers are not always aware of the potential for growing alternative crops;

(3) state government can and should assist producers in meeting the potential of growing alternative crops.

Therefore, all appropriate entities of state government are directed to work cooperatively to develop policies and provide guidance and assistance to Montana producers to enable them to maximize the use of lands to grow alternative crops, including but not limited to pharmaceutical crops, in an environmentally sound manner.

Item 4e is contingent upon passage and approval of Senate Bill No. 172.

Item 8b is contingent upon passage and approval of House Bill No. 245.

The appropriation in item 9b is restricted to providing federal housing grants and for providing administrative assistance to existing housing assistance recipients as their housing and urban development administration section 8 contracts expire and are renegotiated as tenant-based assistance. The addition of funding for up to 1.5 FTE in fiscal year 2000 and up to 2.5 FTE in fiscal year 2001 is contingent upon the housing division experiencing the anticipated volume of expiring contracts. The FTE may not be added until the workload justifies the addition.

The appropriation in item 9c is restricted to administering housing and urban development (HUD) administration housing assistance payment contracts that HUD anticipates no longer administering but passing to others through devolution. The appropriation, including funding for up to 4.5 FTE in each year, is contingent upon the housing division being the successful bidder for this function.

It is the intent of the legislature that funding for the production and distribution of Montana state highway maps come from lodging facilities use tax revenue.

It is the intent of the legislature that the department use at least $200,000 of tourism promotion funds each fiscal year for the Lewis and Clark bicentennial commission.

(4) percent increase in manufacturing employment;

(5) percent increase in economic value of agriculture;

(6) percent decrease in number of multiple jobholders;

(7) percent increase in value of the livestock industry; and

(8) percent increase in revenue generated from film and advertisement production.

The department shall work with all economic development programs, the private sector, and others to reach these outcome goals. The outcome goals for each of the next 2 years must be set and listed on the department's internet website by July 1, 1999. The website must be updated every 6 months to show the progress toward meeting these outcome goals.

Item 12b is contingent upon passage and approval of Senate Bill No. 27.

Legislative contract authority applies only to federal and private funds.

Legislative contract authority expenditures must be reported on state accounting records and kept separate from present law operations. In preparing the 2003 biennium executive budget, the office of budget and program planning may not include expenditures from this item in the present law base.

A report must be submitted by the department to the legislative fiscal analyst following the end of each fiscal year, listing legislaiive contract authority grants received and the amount of expenditures and FTE for each grant.

The legislature recognizes that the cost associated with litigation in which the legal services division is required to provide representation to the state of Montana may exceed the appropriation provided. In that event, the department may need to request a supplemental appropriation from the 2001 legislature to adequately represent the state.

There is appropriated from the highway patrol retirement clearing account for payments to the Montana highway patrol pension fund the amount required for this transfer, not to exceed $750,000 each fiscal year.

Item 2b contains funding for the automated accounting and reporting system. The general fund appropriation of $380,000 reflects the first year of a 5-year general fund commitment for this project. It is the intent of the legislature that an annnal general fund commitment of $380,000 be continued in each year of the 2003 biennium. It is also acknowledged that 1 additional FTE and related operating costs will be necessary in fiscal year 2002.

The appropriation in item 3a is contingent upon the passage of the public referendum in November of 2000 that calls for the replacement of the current system for taxation of light vehicles with a registration fee.

All anticipated revenue from the workers' compensation assessment of 2.6% is included in items 1, 3, 4, and 6. If the 2.6% cap on the workers' compensation assesament is not removed, the department may redistribute the workers' compensation regulation revenue among all divisions to allocate corresponding personal services reductions, except that the workers' conipensation court appropriation may not be changed.

Items 1 through 4 include employment security account funds. Item 4 is contingent upon passage and approval of House Bill No. 282. House Bill No. 282 increases the amount allocated te the employment security account by $404,000 in fiscal year 2000 and $596,000 in fiscal year 2001. The increase has been added te item 4. However, the agency may distribute the increase throughout the programs as necessary.

The appropriations in the job service division, centralized services division, and employment relations division include anticipated available funds from the employment security account. As such, the legislature has considered replacing, and has specifically chosen not te replace, any reduced employment security funds with general fund money. It is therefore the legislature's intent that the programs affected reduce operations to the level requiced to operate within the appropriation and that the department not seek a supplemental appropriation from the next legislature except in the case of an unexpected or unanticipated emergency.

Item 2 includes capital project funds of $434,383 in fiscal year 2000 and $431,805 in fiscal year 2001 and a decrease in federal funds of $343,096 in fiscal year 2000 and $343,096 in fiscal year 2001 for telephone claims annualization. This appropriation is one-time only.

Item 3 includes $21,848 in general fund money, a reduction of $11,132 in state special revenue funds, a reduction of $8,185 in federal funds, and a reduction of $2,531 in proprietary funds in both fiscal year 2000 and fiscal year 2001 for a one-time only human rights cost allocation adjustment.

Item 4 includes $65,852 in general fund money, a reduction of $57,292 in state special revenue funds, a reduction of $1,976 in federal funds, and a reduction of $6,584 in proprietary funds in both fiscal year 2000 and fiscal year 2001 for a one-time only human rights cost allocation adjustment.

Item 4 includes $62,300 in general fund meney and a reduction of $62,300 in federal funds in fiscal year 2000 and fiscal year 2001 for a one-time only general fund replacement of lost federal funds.

Because of the de-earmarking of prevailing wage penalties by House Bill No. 69, item 4 has been reduced by $2,000 in stete special revenue funds in fiscal year 2000 and by $2,000 in stete special revenue funds in fiscal year 2001 and general fund amounts have been increased by the same amounts. If House Bill No. 69 is not passed and approved in a form that de-earmarks the state special revenue funds, then the general fund amounts in item 4 are reduced by $2,000 in fiscal year 2000 and by $2,000 in fiscal year 2001 and the state special revenue amounts are increased by the same amounts.

Excluding the state match, it is the legislature's intent that the welfare-to-work program not be supported with state funds if the federal government reduces or terminates its support.

The department may not use general fund money to support the one-stop workforce center system or the unemployment insurance telephone claims center.

It is the legislature's intent that the centralized services functions of the department be provided to the department's programs and that the rates charged for these functions be the rates agreed upon by the United States department of labor federal cost negotiator. The applied rate for fiscal year 2000 may not exceed 9.6% of a program's actual personal services costs incurred in that fiscal year and in fiscal year 2001 may not exceed 8.9% of a program's actual personal services costs incurred in that fiscal year.

It is the legislature's intent that the input/output control operations functions continue to provide the services to department users. The charge an hour to the users may be no more than $50 an hour for the 2001 biennium. This rate must be analyzed throughout the biennium, and particular consideration must be given to the time spent providing this function to the customers and to the cash balance of the fund.

Items 1 through 3, 5 through 7a, 8, and 9 are a single biennial lump-sum appropriation.

Audit costs for the office of the commissioner of higher education are estimated to be $32,224.

Total audit costs are estimated to be $64,000 for the community colleges for the biennium. The general fund appropriation for each community college provides 51% of the total audit costs in fiscal year 2000. The remaining 49% of these costs must be paid from funds other than those appropriated in item 4a. Audit costs for the biennium may not exceed $20,000 each for Dawson and Miles community colleges and $24,000 for Flathead Valley community college.

Total Summitnet costs are estimated to be $25,000 each year for the community colleges. The general fund appropriation for the community colleges provides 51% of the total Summitnet costs. The remaining 49% of these costs must be paid from funds other than those appropriated in item 4. Summitnot costs for each year may not exceed $8,000 each for Dawson and Miles community colleges and $9,000 for Flathead Valley community college.

The general fund appropriation in item 4 is calculated to fund education in the community colleges for an estimated 2,180 resident FTE students each year. If total annual resident FTE student enrollment in the community colleges is greater than 2,180, the community colleges shall serve the additional students without a state general fund contribution. If actual resident FTE student enrollment is less than 2,180 in either year, the commissioner of higher education shall revert $2,550 in general fund money from the appropriation in item 4 to the state for each estimated FTE student who did not enroll.

Because certain employee benefit plans require a large number of individual premiums for a variety of benefit options, because the portion of these premiums paid by the state is statutorily established in 2-18-703, and because the employee-paid portion of those premiums must be adjusted from time to time to maintain employee group benefit plans on an actuarially

sound basis, the legislature defines rates and fees for Montana university system employee benefit programs to mean the state contribution toward employee group benefits provided for in 2-18-703 and the employee contribution toward employee group benefits necessary to maintain the employee group benefit plans on an actuarially sound basis.

The general fund and millage appropriation in item 7 is calculated to fund education in the 4-year units and the colleges of technology for an estimated 24,622 resident FTE students in fiscal year 2000 and 24,871 resident FTE students in fiscal year 2001. If actual resident student enrollment is greater than the estimated number for the biennium, the university system shall serve the additional students without a state general fund contribution. If actual resident student enrollment is less than the estimated number for the biennium, the commissioner of higher education shall revert $1,837 in general fund money to the state for each estimated FTE student who did not enroll.

Revenue appropriated to the Montana university system units and colleges of technology includes: (1) state special revenue from interest earnings of $1,608,019 each year of the 2001 biennium; and (2) tuition and other revenue of $107,921,502 in fiscal year 2000 and $112,194,076 in fiscal year 2001. These amounts are appropriated for current unrestricted operating expenses as a biennial lump-sum appropriation and are in addition to the funds shown in item 7.

Item 7 includes $399,060 in each year of the biennium that must be transferred to the energy conservation program account and used to retire the general obligation bonds sold to fund energy improvements through the state building energy conservation program. The costs of this transfer in each year of the biennium are: university of Montana-Missoula, $207,300; Montana tech of the university of Montana, $28,000; Montana state university-northern, $97,000; Montana state university-Billings, $56,000; and western Montana college of the university of Montana, $10,760.

Total audit costs are estimated to be $549,842 for the university system other than the office of the commissioner of higher education. Each unit shall pay a percentage of these costs from funds other than those appropriated in item 7a.

At the direction of the legislative audit committee, the legislative auditor shall conduct at least three performance audits of university and college of technology campus physical plant and grounds and maintenance operations during the 2001 biennium. When deciding which campuses to audit, the legislative audit committee shall consider comments from representatives from each campus, the commissioner of higher education, and the architecture and engineering division. The legislative audit committee shall rank each campus in order of audit priority, considering maintenance needs, current maintenance and physical plant expenditures, and other information that the committee considers relevant. The commissioner of higher education shall pay the audit costs of up to $80,000 from the one-time only, biennial general fund appropriation restricted to that purpose. The legislative auditor shall report the results of the performance audits to the legislative audit committee and to the public prior to the 2001 legislative session.

The legislature recommends that a minimum of 13% of the total current unrestricted operating funds for the units and the colleges of technology be spent on operations and maintenance in program 7 because an increasing level of deferred maintenance has followed: (1) construction of a substantial number of new buildings in recent years; and (2) a decline in the proportional amount of the current unrestricted funds spent on operations and maintenance. This percentage is recommended to ensure more timely maintenance that should result in a lower level of deferred maintenance in university system buildings.

University system units are defined in 17-7-102(13). For all university system units, except the office of the commissioner of higher education, all funds (other than plant funds appropriated in House Bill No. 5 relating to long-range building and current unrestricted operating funds) are appropriated contingent on approval of the comprehensive program budget by the board of regents by October 1 of each year. For all university system 4-year units and colleges of technology, all funds, other than funds appropriated in House Bill No. 5 for long-range building programs, are appropriated as a lump sum for the biennium contingent upon approval of the comprehensive program budget by the board of regents by October 1 of each year. The board of regents shall allocate the appropriations to the individual units according to board policy. The budget must contain detailed revenue and expenditure and anticipated fund balances of current funds, loan funds, endowment funds, and plant funds. After the board of regents approves operating budgets, transfers between units may be made only with the approval of the board of regents. Requests for transfer and related justification must be submitted to the office of budget and program planning and to the legislative fiscal analyst prior to approval by the board of regents. All movement of funds between the current unrestricted subfund and the designated subfund accounts must be clearly identified in the state budgeting and accounting system.

All university system units, except the office of the commissioner of higher education, shall account for expenditures consistently within programs and funds across all units and shall use the national center for higher education management systems program classifications structure, along with the college and university business administration (CUBA) system, as a minimum standard for achieving consistency.

Seetion 3. Section 40-5-202, MCA, is amended to read:

"40-5-202. Department of puhlic health and human services — powers and duties regarding collection of support debt. (1) The department may take action under the provisions of this chapter, the abandonment or nonsupport statutes, the Uniform Parentage Act established in Titie 40, chapter 6, part 1, and other appropriate state and federal statutes to provide IV-D services if the department:

(a) receives a referral on behalf of the child from an agency providing services to the child under the provisions of Title 41, Title 52, or Title 53;

(b) is providing services under 40-5-203; or

(c) receives an interstate referral, whether under the Revised Uniform Reciprocal Enforcement of Support Act, the Uniform Interstato Family Support Act, or an interstate action hy a Title IV-D agency of another state.

(2) A verified statement, filed by the department, that it is providing services is prima facie evidence of its authority to act. Upon filing, the department may, on behalf of itself or on behalf of the obligee, obligor, or child, initiate, participate in, intervene in, or exercise any remedy available in a judicial or an administrative action on the same basis as any other party.

(3) Whether acting on its own behalf or on behalf of the obligee, obligor, or child, the department and its attorneys serve the public interest in ensuring that children are supported by their parents, rather than maintained by public assistance. The department does not represent the interests of any individual person, and its attorneys represent only the department. An attorney-client relationship is not created between department attorneys and any person or

HeinOnline -- 1999 vol. III 2671 1999

entity other than the department. The obligoe, obligor, and child may obtain the services of a private attorney to represent their interests. The existence or appearance of a private attorney as counsel of record for the obligee, obligor, or child does not affect the department's right to act or provide services under this chapter. This chapter does not require the department to provide a private attorney for, or to pay for a private attorney for, an obligee, obligor, or child.

(4) The department has the power of attorney to act in the name of any obligee to endorse and cash any drafts, checks, money orders, or other negotiable instruments received by the department on behalf of a child.

(5) (a) If the department is providing IV-D services, the department must be afforded notice and an opportunity to participate as an independent party in any proceeding relating to paternity, to termination of parental rights, or to the establishment, enforcement, or modification of a support obligation, whether initiated by the obligee, the obligor, or the child.

(b) The notice must reasonably inform the department of the issues to be determined in the proceeding, the names of the parties and the child, and the identity and location of the tribunal in which the issues will be determined. The notice is for informational purposes only and is not intended as a substitute for procedures necessary under the Montana Rules of Civil Procedure to establish personal jurisdiction over the department. Whether or not the department is given notice, an agreement, judgment, decree, or order is void as to any interest of the department that is or may be affected by the agreement, judgment, decree, or order if the department was not joined as a party in the manner provided in the Montana Rules of Civil Procedure.

(c) The notice must be personally served on the department. Within 20 days after service of the notice, the department may:

(i) decline to enter the proceeding as a party, in which case the proceeding may continue without the department's participation;

(ii) inform the tribunal that a substantial interest of the department could be adversely affected hy the proceeding, in which case the proceeding may not continue without joining the department as a necessary party in the manner provided in the Montana Rules of Civil Procedure; or

(iii) inform the tribunal that prior to the filing of the proceeding, the department initiated an administrative proceeding under this chapter in which the parties and some or all of the issues are the same as those in the proceeding before the tribunal. The tribunal shall then discontinue the proceeding as to the common issues until administrative remedies have been exhausted.

(6) (a) When the department is providing services, a recipient or former recipient of public assistance who assigned support rights under 42 U.S.C. 602(a)(26) *or 42 U.S.C. 608(a)(3)* or a collection agency acting on behalf of the recipient or former recipient may collect only that part of a delinquent support amount that accrued after termination of public assistance. The recipient, former recipient, or collection agency may not commence or maintain an action against or make an agreement with the obligor te recover an assigned delinquent support amount unless the department, in writing:

(i) releases or relinquishes its assigned interest;

(ii) declares the support debt owed the department to be satisfied, in which case the balance of the delinquent amount is released; or

(iii) consents to the action or agreement.

(b) If a recipient, former recipient, or collection agency collects or receives value for any part of an assigned delinquent support amount and the department has not given its consent or released or relinquished its assigned interest, the recipient, former recipient, or collection agency shall make prompt and full restitution to the department. If prompt and full restitution is not made, the department may send a written demand to the recipient, former recipient, or collection agency, and if prompt and full restitution is not made within 20 days of the date of the written demand, the recipient, former recipient, or collection agency is liable for damages equal to double the amount collected or value received. The amount of damages may be determined and assessed by the department under the contested case provisions of the Montana Administrative Procedure Act. The damages may be collected by the department by any method or remedy available for the enforcement of child support owed by an obligor parent.

(c) This subsection (6) does not limit the right of a person to recover money not assigned. If there are competing proceedings against an obligor for collection of delinquent support, the collection of support assigned to the department takes priority over the obligor's income and assets.

(7) An applicant for or recipient of services may not act to the prejudice of the department's rights while the services are being provided.

(8) Unless the department has consented to the agreement in writing, if public assistance is being or has been paid for a child, an agreement between an obligee and an obligor or a judgment, decree, or order adopting the agreement does not act to reduce or terminate any rights of the department to establish a support order or to recover a support debt from the obligor, even if the agreement, judgment, decree, or order purports to:

(a) relieve or terminate the obligor's support duty;

(b) waive, modify, compromise, or discharge the support debt;

(c) prepay future support obligations or settle past, present, or future support obligations; or

(d) permit the obligor to pay past, present, or future support obligations:

(i) with noncash contributions;

(ii) by the payment of other debts or obligations, such as vehicle, rent, and mortgage payments; or

(iii) by making contributions to a trust or other account or payments toward an asset if the contributed amounts are unavailable to the department.

(9) The department may petition a court or an administrative agency for modification of any order on the same basis as a party to that action is entitled to do.

(10) The department is subrogated to the right of the child or obligee to maintain any civil action or execute any administrative remedy available under the laws of this or any other state to collect a support debt. This right of subrogation is in addition to and independent of the assignment under 42 U.S.C. 602(a)(26) and the support debt created by 40-5-221.

HeinOnline -- 1999 vol. III 2673 1999

(11) If public assistance is being or has been paid, the department is subrogated to the debt created by a support order and any money judgment is considered to be in favor of the department. This subrogation is an addition to any assignment made under 42 U.S.C. 602(a)(26) and applies to the lesser of:

(a) the amount of public assistance paid; or

(b) the amount due under the support order.

(12) The department may adopt and enforce the rules necessary to carry out the provisions of this part.

(13) While providing services under this chapter and in order to carry out the purposes mentioned in this chapter, the department, through its director or the director's authorized representatives, may:

(a) administer oaths;

(b) certify official acts and records;

(c) issue investigative and hearing subpoenas;

(d) order discovery before and after a hearing;

(e) hold prehearing and settlement conferences;

(f) compel the attendance of witnesses and the production of books, accounts, documents, and evidence;

(g) conduct proceedings supplementary to and in aid of a writ of execution or warrant for distraint, including *a hearing on a claim that property is exempt from execution and* the examination of an obligor or other person in the manner provided for the taking of a deposition in a civil action; and

(b) perfect service of investigative and hearing subpeenas by certified mail or in the manner prescribed for service of a summons in a civil action in accordance with the Montana Rules of Civil Procedure.

(14) In addition to any other requirement for service provided by the Montana Rules of Civil Procedure, if a person is required to give notice to, serve, or provide a written response to the department under this chapter, the notice, service, or response must be made to the department's child support enforcement division.

(15) The department may collect any funds received under this chapter, and wrongfully retained, by the obligor through any remedy available for collection of child suppert.

(16) A hearing on a claim that property is exempt from execution must initially be conducted by teleconference methods and is subject to the Montana Administrative Procedure Act. At the request of a party or upon a showing that a party's case is substantially prejudiced by the lack of an in-person hearing, the hearings officer shall grant a de novo in-person hearing."

Section 4. Section 40-5-207, MCA, is amended to read:

"**40-5-207. Department authorized to enforce maintenance awards.** If ~~a judgment or order creating a~~ *the department is providing* child support ~~obligation also contains a judgment or order for the support of a spouse or former spouse who is the custodial parent of the child, the department may collect and enforce spousal support under this part~~ *enforcement services, the department may also, using any remedy available to it, collect and enforce any judgment or order for the maintenance or support of the child's custodial parent.*"

HeinOnline -- 1999 vol. III 2674 1999

Section 5. Section 40-5-210, MCA, is amended to read:

"40-5-210. Standardized fee schedule — rules. (1) The department may charge an application fee to each person applying for services under 40-5-203, except that the fee may not be charged to persons who receive continuing services under 40-5-203(3). The application fee may be:

(a) a flat dollar amount; or

(b) an amount based on a sliding fee schedule that is based on the applicant's income level.

(2) If paternity is established or presumed under 40-5-234 for the alleged father, the fees for paternity blood testing may be recovered from the parent, whether the alleged father or the mother, denying paternity of the alleged father. The total amount of the paternity blood testing fee may not exceed the actual costs of the paternity blood tests. A bill for a paternity blood test is admissible in evidence without third-party foundation testimony.

(3) The department may *not* charge a handling fee for ~~each~~ payment of support collected ~~on behalf of any~~ *and distributed to an* obligee who is not a recipient of public assistance. ~~The department may withhold the fee from the support payment before distribution to the obligee.~~

(4) The department may charge an obligor a late payment fee for each late payment of support collected on behalf of any obligee.

(5) The department may establish a fee schedule in order to recover costs and expenses in excess of the application, handling, and late fees. The fees must be commensurate with costs or an average of the expenditures related to specific or routine activities.

(a) The department shall develop procedures for determining whether it is appropriate for either the obligor or the obligee to be responsible for payment of the fee. In developing the procedures, the department shall consider federal regulations promulgated under Title IV-D of the Social Security Act.

(b) In an action to establish paternity or to establish or enforce a child support obligation, whether in district court or by administrative process, the department must be awarded costs in the amount established in the fee schedule as part of any judgment, decree, or order whenever the department:

(i) is a prevailing party in the action; or

(ii) is not a party but incurs expenses and costs related to the action.

(6) The department may collect the fees awarded under this section by one of the following means:

(a) if the fee is owed by an obliger, the fee may be:

(i) collected through any remedy available to the department for the collection of child support arrearages; or

(ii) deducted from any payments made by the obligor before the payment is distributed to the obligee. Credit for the payment must be reduced by the amount of the deduction for the fee. The deduction for fees may not reduce any current support due to the obligee. The deduction for a late payment fee may not reduce any current or past-due support due to the obligee.

HeinOnline -- 1999 vol. III 2675 1999

(b) if the fee is owed by the obligee, the fee may be collected separately through any remedy available to the department for the collection of child support ~~or the department may withhold the fee amount out of any payment collected on behalf of the obligee. The obligor must receive full credit for the payment as if the withholding of fees did not occur~~ *or, if the fee has been assessed and deducted from the collection by an entity other than the department, the department may withhold the fee amount out of any payment collected on behalf of the obligee. The obligor must receive full credit for the payment as if the withholding of fees did not occur.*

(7) The department, upon a showing of necessity, may waive or defer any fee assessed under this section.

(8) The department may adopt rules necessary to implement fee schedules under this section.

(9) The fees and costs charged and collected under this section must be paid monthly into the state treasury to the credit of the child support enforcement division special revenue fund and must be accompanied by a detailed statement of the amounts collected.

(10) A district court may not order the department to charge or collect fees, except as authorized under this section and rules implementing this section."

"40-5-224. Finding of support liability based upon payment of public assistance — ~~warrant for distraint~~ *support lien* — bond to release warrant — action to collect. (1) If the department reasonably believes that the obligor is not a resident of this state or is about to move from this state or has hidden, absconded, or left~~,~~ or has removed or is about to remove, secrete, waste, or otherwise dispose of property that could be made subject to collection action to satisfy the support debt, the department may issue a ~~warrant for distraint~~ *support lien* pursuant to ~~40-5-247~~ *40-5-248* during the pendency of ~~the fair hearing or after the hearing, whether or not appealed~~ *a collection action initiated by a notice under this chapter.* Further action may not be taken on the ~~warrant~~ *lien* until final determination ~~after fair hearing or appeal~~ *of the collection action.* The department shall make and file in the record of the ~~fair hearing~~ *pending collection action* an affidavit stating the reasons upon which the belief is founded. Section 7. Section 40-5-225, MCA, is amended to read:

HeinOnline -- 1999 vol. III 2676 1999

amount each month for the support of the child. The support order must include a medical support order as required by 40-5-208.

(2) An action to establisb a support order must be commenced by serving a notice of financial responsibility on the parent or parents. The notice must include a statement:

(a) of the names of the child, the obligee, and, if different than the obligee, the child's guardian or caretaker relative;

(b) of the dollar amount of the support obligation to be paid each month for the child;

(c) that in addition to child support, the parent or parents may be ordered to provide for the child's medical support needs;

(d) that any party may request a hearing to contest the amount of child support shown in the notice or to contest the establishment of a medical support order;

(e) that if a party does not timely file a request for hearing, support, including medical support, will be ordered as declared in the notice or in accordance with the child support guidelines adopted under 40-5-209;

(f) that if a party does request a hearing, the other parties may refuse to participate in the proceedings~~, however,~~ *and that* the child support and medical support order will be determined using the information available to the department or provided at the hearing;

(g) that a party's refusal to participate is a consent to entry of a child support and medical support order consistent with the department's determination; and

(h) that the parties are entitled to a fair hearing under 40-5-226.

(3) If a support action is pending in district court and a temporary or permanent support obligation has not been ordered or if a paternity action is pending and there is clear and convincing evidence of paternity based on paternity blood tests or other evidence, the department may enter an order requiring a child's parent or parents to pay an amount each montb for the temporary support of the child pending entry of a support order by the district court. The temporary support order must include a medical support order as required by 40-5-208.

(4) An action to establish a temporary support order must be commenced by serving a notice of temporary support obligation on the parent or parents. In addition to the statements required in subsection (2), the notice must include a statement that:

(a) a party may request a hearing to show that a temporary support obligation is inappropriate under the circumstances; and

(b) the temporary support order will terminate upon the entry of a final support order or an order of nonpaternity. If the final order is retroactive, any amount paid for a particular period under tbe temporary support order must he credited against the amounts due under the final order for the same period, but excess amounts may not be refunded. If an order of nonpaternity is issued or if the final support order states that periodic support obligation is not proper, the obligee shall refund to the obligor any improper amounts paid under the temporary support order, plus any costs *that* the ~~obligee [~~obligor] incurs in recovering the amount to be refunded.

HeinOnline -- 1999 vol. III 2677 1999

(5) (a) If a temporary support order is entered or if proceedings are commenced under this section for a married obligor, the department shall vacate any support order or dismiss any proceeding under this part if it finds that the parties to the marriago have:

(i) reconciled without the marriago having been dissolved;

(ii) made joint application to the department to vacate the order or dismiss the proceeding; and

(iii) provided proof that the marriago has been resumed.

(b) The department may not vacate a support order or dismiss a proceeding under this subsection (5) if it determines that the rights of a third person or the child are affected. The department may issue a new notice of temporary support obligation under this section if the parties subsequently separate.

(6) A notice of financial responsibility and tbe notice of temporary support obligation may be served either by certified mail or in the manner prescribed for the service of a summons in *a* civil action in accordance with the Montana Rules of Civil Procedure.

(7) If prior to service of a notice under this section, the department has sufficient financial information, the department's allegation of the obligor's monthly support responsibility, whether temporary or final, must be based on the child support guidelines established under 40-5-214. If the information is unknown to the department, the allegations of the parent's or parents' monthly support responsibility must be based on the greater of:

(a) the maximum amount of public assistance that could be payable to the child under Title 53 if the child were otberwise eligible for assistance; or

(b) the child's actual need as allegod by tbe custodial parent, guardian, or caretaker of the child.

(8) (a) A party who objects to a notice of financial responsibility or notice of temporary support obligation may file a written request for *a* hearing with the department:

(i) within 20 days from the date of service of a notice of financial responsibility; and

(ü) within 10 days from the date of service of a notice of temporary support ohligation.

(b) If the department receives a timely request for a hearing, it shall conduct one under 40-5-226.

(c) If the department does not receive a timely request for a hearing, it shall order the parent or parents to pay child support and to provide for the child's medical needs as stated in tlie notice. The child support obligation must be the amount stated in the notice or determined in accordance with the child support guidelines adopted under 40-5-209.

(9) If the department is unable to enter an obligation in accordance with the child support guidelines because of default of a party, the department may, upon notice to the parties to the original order, substitute a support order made in accordance with the guidelines for the defaulted order.

HeinOnline -- 1999 vol. III 2678 1999

(10) After establishment of an order under this section, the department may initiate a subsequent action on the original order to establish a support obligation for another child of the same parents.

~~(9)~~*(11)* A child support and medical support order under subsection (1) continues until the child attains 18 years of age or the child's graduation from high school, whichever occurs later, but not later than the child's 19th birthday, unless the child is sooner emancipated by court order. A temporary support obligation established under subsection (3) continues until terminated as provided in subsection (5) or until the temporary order is superseded by a final order, judgment, or decree."

Section 8. Section 40-5-247, MCA, is amended to read:

"40-5-247. Warrant for distraint — effect — satisfaction of support lien — redemption. (1) (a) The department may issue a warrant for distraint to execute support liens established by 40-5-248 or to enforce and collect any money obligation authorized under this chapter.

(b) The warrant must be an order, under official seal of the department, directed to a sheriff of any county of the state or to any levying officer authorized by law to enforce a district court judgment. The order must command the recipient to levy upon and sell nonexempt real and personal property to satisfy the support lien upon which the warrant is based. *The warrant must include notice of:*

(i) the existence of exemptions from execution;

(ii) the procedure by which an exemption may be claimed; and

(iii) the right to request a hearing to determine an exemption claim.

(c) A warrant must be signed by the director of the department or the director's designee.

(d) The warrant must be for the amount of the support lien or the amount of any other money obligation determined under this chapter, including interest and fees, if any.

(e) A warrant for distraint has the same effect as a writ of execution issued by a district court to enforce money judgments.

(2) (a) A warrant for distraint may be sent by the department to the sheriff or levying officer. Upon receipt of the warrant, the sheriff or levying officer shall proceed to execute upon the warrant in the same manner as prescribed for execution upon a judgment.

(b) A copy of the warrant must be mailed to the obligor at the obligor's last-known address at or promptly after the time of seizure.

(c) Within 10 days after the date of the mailing of the warrant to the obligor, an obligor claiming an exemption may request a hearing to determine the existence of the exemption. The department shall convene a contested case hearing to determine the claimed exemption. An order entered under this section is a final agency order, subject to judicial review under Title 2, chapter 4, part 7.

~~(b)~~*(d)* A sheriff or levying officer shall return a warrant, along with any funds collected, within 90 days of the receipt of the warrant.

~~(c)~~*(e)* Funds resulting from execution upon the warrant must first be applied to the sheriff's or levying officer's costs, any superior liens, the support lien, or

HeinOnline -- 1999 vol. III 2679 1999

other money obligation and to any inferior liens. Any amounts in excess of this distribution must be paid to the obligor.

~~(d)~~*(f)* If the warrant is returned not fully satisfied, the department has the same remedies to collect the deficiency as are available for any civil judgment.

(3) A sheriff's or levying officer's levy against real and personal property of the obligor is not limited to property in possession of persons or other entities given notice of a support lien under 40-5-242.

(4) (a) Upon receiving payment in full of the unpaid warrant amount plus penalty and fees, if any, and accumulated interest, the department shall release the warrant.

(b) Upon receiving partial payment of the unpaid warrant amount or if the department determines that a release or partial release of the warrant will facilitate the collection of the unpaid amount, penalty, and interest, the department may release or may partially release the warrant for distraint. The department may release the warrant if it determines that the warrant is unenforceable.

(5) An obligor or other person or entity having an interest in real or personal property levied upon by a warrant for distraint at any time prior to sale of the property may pay the amount of the support lien or other money obligation and any costs incurred by the sheriff or levying officer serving the warrant. Upon payment in full, the property must be restored to the obligor or other person and all proceedings on the warrant must cease.

(6) An obligor or other person or entity having an interest in real property levied upon and sold by a sheriff or levying officer pursuant to a warrant for distraint may, within 240 days after sale of the property, redeem the property by making payment to the purchaser in the amount paid by the purchaser plus interest at the statutory interest rate payable on judgments recovered in the district court.

(7) At any time after distraint of property under a warrant for distraint, the department may release all or part of the seized property without liability if payment of the support lien or other money obligation is assured or if the action will facilitate collection of the support lien or other money obligation. The release or return does not operate to prevent future action to collect the warrant amount from the same or other property.

(8) The department may issue a warrant for distraint to collect a support lien or other money obligation under this section at any time within the statutory limitation period for enforcing and collecting delinquent child support.

(9) The use of the warrant for distraint is not exclusive, and the department may use any other remedy provided by law for the collection of child support amounts."

Section 9. Section 40-5-253, MCA, is amended to read:

"40-5-253. Administrative findings and order — administrative remedies — judicial review. (1) It is the intent of this part that administrative findings and orders be subject to judicial review, but administrative remedies must be exhausted prior to judicial review. The administrative procedures described in this part are subject to review in the appropriate district court. Except as provided in subsections (3) through (5), the review must be conducted pursuant to the Montana Administrative Procedure Act. Upon a showing by the

HeinOnline -- 1999 vol. III 2680 1999

department that administrative remedies have not been exhausted, the district court shall refuse review until the remedies are exhausted.

(2) This part may not be construed to abridge or in any way affect the obligor's right to counsel during any and all judicial or administrative proceedings pursuant to this part.

(3) A petition for judicial review is an original action and may not be filed under a preexisting cause number or joined with any other action.

(4) A summons must be issued and served under Rule 4, Montana Rules of Civil Procedure, upon the *child support enforcement division of the* department and each party, along with the petition for judicial review. *The division may be served through any of its employees.* The district court does not obtain jurisdiction unless the petition for judicial review is served on all parties within 30 days after the petition is filed with the district court.

(5) The district court shall set a briefing schedule for a petition for judicial review. A reference in a brief to the administrative record must be to a particular part of the record, suitably designated, and to specific pages of that part of the record. Intelligible abbreviations may be used. A reference to an exhibit must be to the pages of the transcript on which the exhibit is identified, offered in evidence, and received or rejected. After briefs have been filed~~,~~ and upon motion of a party, the district court may order oral argument."

Section 10. Section 40-5-273, MCA, is amended to read:

"40-5-273. Administrative review of child support orders — modifying orders. (1) A review application setting forth facts meeting any of the criteria for review of a child support order established in 40-5-272 must be scheduled for an administrative review. Unless the department determines under rules of the department that an in-person review is necessary, the review must be conducted by teleconferencing methods. A notice that an administrative review will be conducted must be served *either personally or by certified mail* on the obligor and the obligee. *If service is by certified mail, the department must receive a return receipt signed by the person to whom the notice was mailed for the service to be effective.* The notice must include the following information as an exception to 2-4-601:

(a) a statement of the purpose, objectives, and possible consequences of the review;

(b) a statement of the right of the obligor and the obligee to request the department to issue subpoenas compelling the appearance of witnesses and the production of documents for a hearing; and

(c) a requirement that the obliger and the obligee provide the department with telephone numbers at which they and their witnesses may be contacted for the review.

(2) The department may issue an order commanding the obligor or the obligee, or both, to produce financial information. The order must be ~~personally~~ served *either personally or by certified mail* with the notice that a review will be conducted. *If service is by certified mail, the department must receive a return receipt signed by the person to whom the order was mailed for the service to be effective.* The department may also issue subpoenas ordering the parties to produce information in their possession about the obliger and the obligee that

HeinOnline -- 1999 vol. III 2681 1999

may be reasonably necessary for application of the guidelines. Any information so obtained by the department must be provided to the parties before a hearing.

(3) The requested modification of the order must be determined on the evidence submitted to the department under the following conditions:

(a) If an applicant other than the department fails to provide a telephone number for the review or fails to be at the number provided when telephoned for the review, the failure may be considered a withdrawal of the application.

(b) If a party other than the applicant fails to provide a telephone number for the review or fails to be at the number provided when telephoned for the review, the failure is considered to mean that the party does not oppose the modification.

(c) If the department is the applicant and if either the obligor or the obligee, or both, fails to provide a telephone number for the review or fails to be at the number provided when telephoned for the review, the failure may be considered an admission that the party or parties do not oppose the modification.

(4) (a) An order entered under the circumstances described in subsection (3)(a), (3)(b), or (3)(c) becomes final within 30 days of issuance unless a party provides the hearings officer an affidavit showing good cause for failure to provide a telephone number or failure to be available when telephoned.

(b) A proposed modification consent order or notice of proposed modification becomes final 30 days after issuance unless during that period a party files with the department a written request for further administrative proceedings.

(c) The department shall grant a modification hearing if it receives a timely written request by a party aggrieved by the department's determination. The hearing is subject to the provisions of this section relating to a review. The department may adopt rules regulating the fair and efficient conduct of the hearing. Unless the department determines under department rules that an in-person hearing is necessary, the hearing must be conducted by teleconferencing methods.

(5) A provision of law may not be construed to mean that an obligor or an obligee is a client of the department, and the department is not considered a party to the action.

(6) (a) In addition to the powers and duties provided by other law, the department shall, to ensure the equitable determination of a support obligation, during a review:

(i) question witnesses in a nonadversarial manner to elicit full disclosure of all pertinent facts;

(ii) introduce evidence on behalf of the parties;

(iii) apply the guidelines to the facts elicited from the review; and

(iv) inquire as to any circumstances that may require variance from the guidelines.

(b) If a party is represented by legal counsel, the department may allow the counsel to present that party's case.

(7) The department shall determine a support obligation in accordance with the guidelines and shall issue a modifying order. A stipulation by the parties in a proceeding under this section may not be contested before entry of the final

HeinOnline -- 1999 vol. III 2682 1999

department order. If the department determines that the difference between the existing support order and the amount determined under the guidelines is negligible under rules issued by the department, the modifying order may not change the amount of the support obligation. Even though the review may indicate that a modification of the support obligation is appropriate, the department may not modify the support order if the department determines, after the review, that to do so would not be in the best interests of the child under the rules issued by the department. An increase in child support is presumed to be in the best interests of the child unless, after a review, either the obligor or the obligee demonstrates it would not be in the best interests of the child. The modifying order may modify the underlying support order from the date of service of a notice that an administrative review will be conducted under this section and may modify the underlying order from the date found to be the date that the amount required for support decreased. The obligee may be ordered to repay the obligor for any support amount overpayment found to have been paid since the date that the amount required for support decreased. If the case is a IV-D case, the department shall, on request of the obligor, enforce the obligee's repayment of the overpaid amount using any procedure provided in this chapter for payment, enforcement, and collection of child support or a delinquency.

(8) The department shall consider whether or not health insurance for the child is available and shall include an appropriate requirement for the provision of the child's health insurance needs in a modifying order in accordance with part 8 of this chapter.

(9) In addition to complying with other requirements of law, the modifying order must include ~~the following notices and warnings~~ *provisions*:

(a) that ~~the obligor shall keep the department informed of the name and address of the obligor's current employer and information on health insurance available to the obligor through the obligor's employment or other group insurance; and~~ *each party, other than the department, is required to promptly file with the department and update, as necessary, information on:*

(i) the identity of the party;

(ii) the party's social security number;

(iii) the party's residential and mailing addresses;

(iv) the party's telephone number;

(v) the party's driver's license number;

(vi) the name, address, and telephone number of the party's employer; and

(vii) if the child is covered by a health or medical insurance plan, the name of the insurance carrier or medical insurance plan, the policy identification number, the names of the persons covered, and any other pertinent information regarding coverage or, if the child is not covered, information as to availability of coverage for the child through the obligor's and obligee's employers;

(b) that in a subsequent child support enforcement action, upon sufficient showing that diligent effort has been made to ascertain the location of a party, the department's due process requirements for notice and service of process are met with respect to the party upon delivery of written notice by regular mail to the most recent known address of the party or the party's employer's address reported to the department; and

HeinOnline -- 1999 vol. III 2683 1999

~~(b)~~*(c)* that the modifying order is subject to future administrative review and modification by the department upon the request of the department or a party under 40-5-271 through 40-5-273 when the department is providing services under IV-D.

(10) The department shall keep information provided under subsection (9)(a) confidential except as necessary for purposes of Title IV-D of the Social Security Act.

~~(10)~~*(11)* An order entered under this section by the department is a final agency decision, subject to judicial review pursuant to the Montana Administrative Procedure Act, except as provided in 40-5-253. An order entered under this section must notify the parties that the order is subject to judicial review under Title 2, chapter 4, part 7. A final order entered under a stipulation of parties waives the stipulating parties' right to judicial review.

~~(11)~~*(12)* The parties to the support order and the department when it is providing services under IV-D may enforce the support order or modify that order independently, as provided in 40-4-208 and 53-2-613(4)(d)."

Section 11. Section 40-5-315, MCA, is amended to read:

"40-5-315. Immediate income deductions. (1) Notwithstanding any provision in this part requiring a delinquency as a prerequisite to an order for income deductions, except as provided in subsection (2), the income of a person obligated to pay child support by an order of a district court issued after October 1, 1991, is subject to an immediate deduction order on the effective date of the order.

(2) An obligor's income is not subject to deduction under this section in any case in which the district court finds:

(a) that there is good cause not to require immediate deduction; or

(b) that there is an alternative arrangement between the parties for the payment of support that provides sufficient security to ensure compliance with the arrangement.

(3) (a) For the purposes of subsection (2), a finding of good cause not to require immediate deduction must, at a minimum, be based on:

(i) a written determination and explanation by the district court as to why implementation of immediate deductions is not in the best interests of the child; and

(ii) in cases involving the modification of support orders, proof of timely payment of previously ordered support.

(b) As used in subsection (2)(b), "alternative arrangement" means a written agreement ~~that is signed by~~ *between* the obligor and obligee and, in cases in which there is an assignment of support rights under 53-2-613, ~~signed by~~ the department of public health and human services ~~and~~ that has been approved and entered into the record by the district court that issued or modified the support order.

(4) The clerk of court shall administer immediate income deductions under this section. The clerk of court, at any time after docketing the support order or modification of a support order, at the request of the obligee, and without need for amendment to the support order or for any further action by the district court, shall issue the order for income deductions for service upon the obligor's payor.

HeinOnline -- 1999 vol. III 2684 1999

The deduction order must direct the payor to promptly deliver the amount deducted to the department of public health and human services, as provided in 40-5-909, for distribution to the obligee.

(5) Deductions under this section may be terminated only when:

(a) the obligation to pay support has terminated and all arrearages are paid in full;

(b) the obliger requests termination and the obligee and obliger have entered into an alternative arrangement as set forth in subsection (2)(b); or

(c) the department of public health and human services has superseded the deduction order under authority of Title 40, chapter 5, part 4.

(6) If a delinquency occurs subsequent to issuance of an immediate deduction order or if arrearages occur prior to beginning the deductions, the arrearages may be added to the deduction order only after compliance with the notice of hearing requirements of 40-5-305.

(7) (a) After October 1, 1991, whenever a support order is registered as provided by 40-5-184 or other law, the support order is subject to immediate orders to deduct income under this section.

(b) Withholding income under this section must be imposed when an obligor has income derived from within this state and the support order was issued in another state.

(8) This section applies only to support orders that are not being enforced by the department of public health and human services under Title IV-D of the Social Security Act. The withholding of income for support orders being enforced by the department is provided for in Title 40, chapter 5, part 4, and those procedures, if applicable, supersede the provisions of this section."

Section 14. Section 40-5-806, MCA, is amended to read:

"40-5-806. Contents of medical support order. (1) A medical support order may specify terms for individual insurance coverage and, to the extent of options within an available health benefit plan, the terms for plan coverage, including:

(a) minimum required policy limits;

(b) minimum required coverage;

(c) maximum terms for deductibles or required copayments; and

(d) other significant terms.

(2) If a child is already covered by individual insurance or a health benefit plan, if the child does not have existing coverage but coverage can be obtained under a health benefit plan that is available to the primary parent, or if the child does not have existing coverage and coverage for the child under a plan is available to the other parent, then the medical support order must require participation in that plan unless:

(a) the cost of continuing coverage or the cost of the health benefit plan is not reasonable or cost-beneficial; or

HeinOnline -- 1999 vol. III 2688 1999

(b) another plan or individual insurance is available that will better serve the interests of the parties.

(3) If health benefit plans are available to both parents at a combined cost that is reasonable or cost-beneficial and with benefits that are complementary or compatible as primary and secondary coverage, the medical support order must require both parents to provide coverage for the child.

(4) If, at the time of the medical support order, coverage for the child in a health benefit plan is not available to either parent, the parent other than the primary parent must be required to obtain individual insurance coverage for the child. If the cost of individual insurance is not reasonable or cost-effective, the parent other than the primary parent must be required to obtain individual insurance or a health benefit plan at such time in the future that it becomes available to that parent at reasonable cost. The requirements in this subsection (4) to obtain a plan are not enforceable if:

(a) the primary parent has obtained individual insurance or a health benefit plan for the child and both parents have agreed in writing to share the costs of maintaining the coverage; or

(b) the other parent persuades the tribunal that the cost of available health benefit plans is not reasonahle or cost-beneficial.

(5) This section also applies when a child is placed with a third-party custodian, unless a parent has obtained individual insurance or a plan for the child and both parents have agreed in writing to share the costs of maintaining the coverage or a parent persuades the tribunal that the cost of available individual insurance and plans is not reasonable or cost-heneficial. For purposes of this subsection, the primary parent is considered to be the parent with whom the child resided for the most 24-hour periods in the 12 months prior to placement with the third-party custodian.

(6) The medical support order must also provide that the cost of individual insurance or the health benefit plan, any copayments and deductibles required under the coverage, and all medical expenses for the child that are not covered by individual insurance or the plan must be shared hetween parents in accordance with the child support guidelines. If the order fails to desiguate each parent's share, each parent is liable for 50% of the costs and expenses.

~~(7) (a) Except as provided in subsection (7)(b), if the cost of individual insurance or a health benefit plan is not reasonable or cost-beneficial or if a plan is not otherwise available and if the child is a recipient of medical assistance under Title XIX of the federal Social Security Act or later becomes a recipient of medical assistance:~~

~~(i) when the child is a recipient together with a parent, the medical support order must require the other parent to pay $50 per month;~~

~~(ii) when the child is not a recipient with a parent, the medical support order must require each parent to pay $50 per month; and~~

~~(iii) when the child is a recipient with both parents, neither parent has an obligation under this subsection (7)(a).~~

~~(b) The tribunal may order the parent or parents to pay a greater or lesser amount each month as the tribunal finds appropriate to the circumstances.~~

HeinOnline -- 1999 vol. III 2689 1999

~~(c) The amounts ordered to be paid under this subsection (7) must be paid to the department for return to the appropriate state treasury fund to help offset the costs of the medical assistance program.~~

~~(8)~~*(7)* The costs of providing individual insurance or a health benefit plan may not be used as a direct offset to the child support obligation. However, as provided by the child support guidelines, the costs may be considered in making or modifying a child support order.

~~(8)~~*(8)* (a) Individual insurance or a health benefit plan is presumed to be available at reasonable cost if:

(i) an amount payable for individual insurance or health benefit plan premiums does not exceed 25% of the obligated parent's total parental child support obligation when calculated under the child support guidelines without credit for the medical support obligation; or

(ii) a health benefit plan is available through an employer or other group organization for which the premium is partially or entirely paid by the employer or other group organization.

(b) The presumption under subsection ~~(8)(a)~~ *(8)(a)* may be rebutted by clear and convincing evidence, and the tribunal has the discretion to:

(i) order individual insurance or health benefit plan coverage when the amount of the premium may be greater than the presumptive amount; or

(ii) not order coverage when the amount of the premium is less than the presumptive amount."

Section 15. Section 40-5-807, MCA, is amended to read:

"40-5-807. Mandatory provisions of medical support order. (1) Unless the tribunal expressly specifies otherwise, a medical support order must include terms directed toward the provisions of 40-5-806(2) through ~~(9)~~ *(8)*, even though a provision contained in those subsections may not apply to the parent's circumstances at the time the order is entered. The terms may be established as alternatives or contingencies that provide that if circumstances later change, the health needs of the child will continue to be met under one of the subsections without need for modification of the medical support order or other action by the tribunal that issued the order or any other tribunal of competent jurisdiction.

(2) If circumstances change and a parent believes that corresponding changes in costs are not reasonable or cost-beneficial, the parent may move to petition any appropriate tribunal for relief.

(3) If a health benefit plan is provided through an employer, union, or other group, the medical support order must also include provisions necessary to entitle the order to recognition as a qualified medical child support order."

Section 16. Section 40-5-901, MCA, is amended to read:

Section 1. Procedure for calculating levy. (1) A governmental entity that is authorized to impose mills may impose a mill levy sufficient to gonerate the amount of property taxes actually assessed in the prior year, even if that levy is greater than the levy established by law. The maximum number of mills that a governmental entity may impose is establisbed by calculating tlie number of mills required to generate tbe amount of property tax actually assessed in tbe governmental unit in the prior year based on the current year taxable value, less the value of newly taxable property.

(2) A governmental entity may apply the levy calculated pursuant to subsection (1) plus any additional levies authorized by the voters to all property in tlie governmental unit, including newly taxable property.

(3) For purposes of this section, newly taxable property includes:

(a) annexation of real property and improvements into a taxing unit;

(b) construction, expansion, or remodeling of improvements;

(5) For purposes of subsection (1), taxes imposed do not include net or gross proceeds taxes received under 15-6-131 and 15-6-132.

(6) In determining the maximum number of mills in subsection (1), the governmental entity shall take into account any change from the prior year in

HeinOnline -- 1999 vol. III 2735 1999

the amount of statutory reimbursements for changes in the property tax laws. It may increase the number of mills to account for a decrease in reimbursements and shall decrease the number of mills to fully account for any increase in reimbursements.

However, the number of mills calculated by the department may not exceed the mill levy limits established in those sections.

Section 80. Section 15-1-402, MCA, is amended to read:

"15-1-402. Payment of taxes under protest. (1) The person upon whom a property tax or fee is being imposed under this title may, before the property tax or fee becomes delinquent, pay under written protest that portion of the property tax or fee protested. The protested payment must:

(a) be made to the officer designated and authorized to collect it;

(b) specify the grounds of protest; and

(c) not exceed the difference between the payment for the immediately preceding tax year and the amount owing in the tax year protested unless a different amount results from the specified grounds of protest, which may include but are not limited to changes in assessment due to reappraisal under 15-7-111.

(2) A person appealing a property tax or fee pursuant to chapter 2 or 15 shall pay the tax or fee under protest when due in order to receive a refund. If the tax or fee is not paid under protest when due, the appeal may continue but a tax or fee may not be refunded as a result of the appeal.

(3) If a protested property tax or fee is payable in installments, a subsequent installment portion considered unlawful by the state tax appeal board need not be paid and an action or suit need not be commenced to recover the subsequent installment. The determination of the action or suit commenced to recover the first installment portion paid under protest determines the right of the party paying the subsequent installment to have it or any part of it refunded to the party or the right of the taxing authority to collect a subsequent installment not paid by the taxpayer plus interest from the date the subsequent installment was due.

(4) All property taxes and fees paid under protest to a county or municipality must be deposited by the treasurer of the county or municipality to the credit of a special fund to be designated as a protest fund and must be retained in the protest fund until the final determination of any action or suit to recover the taxes and fees unless they are released at the request of the county, municipality, or other local taxing jurisdiction pursuant to subsection (5). This section does not prohibit the investment of the money of this fund in the state unified investment program or in any manner provided in Title 7, chapter 6. The provision creating the special protest fund does not apply to any payments made under protest directly to the state.

(5) The governing board of a taxing jurisdiction affected by the payment of taxes under protest in the second and subsequent years that a tax protest remains unresolved may demand that the treasurer of the county or municipality pay the requesting taxing jurisdiction all or a portion of the protest payments to which it is entitled, except the amount paid by the taxpayer in the first year of the protest. The decision in a previous year of a taxing jurisdiction to leave protested taxes in the protest fund does not preclude it from demanding in a subsequent year any or all of the payments to which it is entitled, except the first-year protest amount.

(6) (a) If action before the county tax appeal board, state tax appeal board, or district court is not commenced within the time specified or if the action is commenced and finally determined in favor of the department of revenue, county,

HeinOnline -- 1999 vol. III 2763 1999

municipality, or treasurer of the county or the municipality, the amount of the protested portions of the property tax or fee must be taken from the protest fund and deposited to the credit of the fund or funds to which the property tax belongs, less a pro rata deduction for the costs of administration of the protest fund and related expenses charged the local government units.

(b) If the action is finally determined adversely to the department of revenue, a county, a municipality, or the treasurer of a county or a municipality, then the treasurer shall, upon receiving a certified copy of the final judgment in the action from the state tax appeal board or from the district or supreme court, as appropriate, if the final action of the state tax appeal board is appealed in the time prescribed, refund to the person in whose favor the judgment is rendered the amount of the protested portions of the property tax or fee deposited in the protest fund, and not released pursuant to subsection (5), as the person holding the judgment is entitled to recover, together with interest from the date of payment under protest, at the greater of:

(i) the rate of interest generated from the pooled investment fund provided for in 17-6-203 for the applicable period; or

(ii) 6% a year.

(c) If the amount retained in the protest fund is insufficient to pay all sums due the taxpayer, the treasurer shall apply the available amount first to tax repayment, then interest owed, and lastly to costs.

(d) If the protest action is decided adversely to a taxing jurisdiction and the amount retained in the protest fund is insufficient to refund the tax payments and costs to which the taxpayer is entitled and for which local government units are responsible, the treasurer shall bill and the taxing jurisdiction shall refund to the treasurer that portion of the taxpayer refund, including tax payments and costs, for which the taxing jurisdiction is proratably respensible.

(e) In satisfying the requirements of subsection (6)(d), the taxing jurisdiction is allowed not more than 1 year from the beginning of the fiscal year following a final resolution of the protest. The taxpayer is entitled to interest on the unpaid balance at the greater of the rates referred to in subsections (6)(b)(i) and (6)(b)(ii) from the date of payment under protest until the date of final resolution of the protest and at the combined rate of the federal reserve discount rate quoted from the federal reserve bank in New York, New York, on the date of final resolution, plus four percentage points, from the date of final resolution of the protest until refund is made.

(7) A taxing jurisdiction may satisfy the requirements of this section by use of funds from one or more of the following sources:

(a) *subject to [section 1],* imposition of a property tax to be collected by a special tax protest refund levy;

(b) the general fund, except that amount generated by the all-purpose mill levy, or any other funds legally available to the governing body; and

(c) proceeds from the sale of bonds issued by a county, city, or school district for the purpose of deriving revenue for the repayment of tax protests lost by the taxing jurisdiction. The governing body of a county, city, or school district is authorized to issue the bonds pursuant to procedures established by law. The bonds may be issued without being submitted to an election. ~~Property~~ *Subject to [section 1], property* taxes may be levied to amortize the bonds."

Section 167. Reimbursement to counties, cities, towns, and consolidated city-county governments for losses in revenue. (1) (a) The department of revenue shall determine the amount of tax and other revenue lost by each local government unit as a result of the enactment of House Bill No. 128, House Bill No. 174, House Bill No. 420, House Bill No. 658, Senate Bill No. 200, and Senate Bill No. 530 for fiscal year 2000 and for fiscal year 2001. The determination must be made by August 15, 1999, for fiscal year 2000, and by March 15, 2000, for fiscal year 2001. The department shall use fiscal year 1998 as its base year for each determination.

(b) As used in this section, "local government unit" means a county, city, or town capable of levying mills, consolidated city-county government, school district, miscellaneous district, or other local district that levies mills. The term does not include the state.

(c) The department shall determine the amount of tax and other revenue due each local government unit for fiscal year 1998 from the following sources:

(i) property taxes levied by each local government unit within each county or consolidated city-county government for fiscal year 1998, but excluding any mills levied by the state pursuant to [section 1 of Senate Bill No. 79], 20-9-331, 20-9-333, 20-9-360, 20-25-439, and 53-2-813; and

(ii) oil and gas production taxes levied and distributed as provided for in Title 15, chapter 36.

(2) The department shall calculate for each local government unit for fiscal year 1998 the amount of tax and other revenue that would have been due each local government unit from the sources listed in subsection (1) if House Bill No. 128, House Bill No. 174, House Bill No. 420, House Bill No. 658, Senate Bill No. 200, and Senate Bill No. 530 had been in effect for fiscal year 1998.

(3) In making the calculation provided for in subsection (2), the department shall take into account any benefit to a local government unit that levied mills against electrical generation property in fiscal year 1998 from any increase in the assessed value of electrical generation property stemming from the sale of electrical generation assets subsequent to tax year 1997.

(4) (a) Each county, city, town, and consolidated city-county government that in aggregate lost tax revenue in a particular year, based on the difference between the calculation in subsections (1)(c) and (2), must receive the same percentage of the appropriation for local government reimbursements as the appropriation bears to the total amount of loss for all local government units in this state. Payments must be made in two similar installments for each fiscal year on or about December 15 and June 15. Each county, city, town, and consolidated city-county government is authorized to distribute the revenue received among its funds and districts according to current year mill levies. Except as provided in subsections (4)(b), each tax increment financing district must receive the

HeinOnline -- 1999 vol. III 2812 1999

benefit of the reimbursement based on the loss to the incremental taxable value of the district.

(b) A tax increment financing district that consists of an industrial district created under 7-15-4299 may not receive any reimbursement under subsection (4)(a).

(5) The amount of loss calculated in subsection (2), converted to taxable value by multiplying by the applicable mill levy, shall be added to the taxable value of taxing units to determine their bonding limits.

(6) (a) A charter form of local government that has a charter provision that prohibits an increase in the number of mills that may be levied to compensate for the loss of taxable value, as authorized in [section 1], is entitled to further reimbursement in addition to that computed under subsections (1) through (5) of this section.

(b) The amount of reimbursement is equal to the difference between the amount of the reimbursement calculated under subsections (1) through (5) and the amount of property tax imposed in tax year 1998. If the amount appropriated for the reimbursement under this subsection (6) is insufficient to fully fund all the jurisdictions entitled to reimbursement, the payments must be prorated to the jurisdictions. The payments must be made with the payments made under subsections (1) through (5).

Section 168. Local government and court funding and strueture committees — membership — purpose. (1) There is an interim local government funding and structure committee composed of 10 members. The members must include:

(6) (a) The purpose of the committees is to conduct a study of funding local government, including the courts, to ascertain the best method of allocating current and future resources, while providing a complementary funding relationship between local government and state government. This complementary funding relationship must provide stable and reliable revenue streams to local governments, including the courts. The study must explore regional concepts, as well as further lifting of local government revenue restrictions and de-earmarking of revenue to local governments. The complementary funding relationship must meet the criteria set forth in the following vision statement, adopted by the local government funding and school finance visioning group:

"We are dedicated to partnerships among the state, counties, cities, and school districts that are based on mutual trust and respect for local authority. The money received must be used for fulfilling the duties of the committees, for reimbursing the expenses of committee members, or for providing staff for the committees. The money received must be placed in a special revenue fund account to the credit of the department of administration.

(2) In addition to any funds received pursuant to subsection (1), there is appropriated $55,000 from the general fund to the committees created pursuant to the provisions of [section 168] for the biennium for the operating expenses and personnel expenses of the committees.

CHAPTER NO. 588

[SB 499]

AN ACT AMENDING THE WATER QUALITY ACT TO ENSURE CONSISTENCY WITH FEDERAL REQUIREMENTS; AMENDING NONDEGRADATION SIGNIFICANCE CRITERIA; REVISING ACTIVITIES FOR WHICH SHORT-TERM EXEMPTIONS FROM WATER QUALITY STANDARDS MAY BE AUTHORIZED; AMENDING NONDEGRADATION REQUIREMENTS FOR OUTSTANDING RESOURCE WATERS; PROVIDING FOR SHORT-TERM TURBIDITY STANDARDS; AMENDING SECTIONS 75-5-301, 75-5-308, 75-5-316, 75-5-317, AND 75-5-401, MCA; AND PROVIDING AN IMMEDIATE EFFECTIVE DATE.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 75-5-301, MCA, is amended to read:

"75-5-301. Classification and standards for state waters. Consistent with the provisions of 80-15-201 and this chapter, the hoard shall:

(1) establish the classification of all state waters in accordance with their present and future most beneficial uses, creating an appropriate classification for streams that, due to sporadic flow, do not support an aquatic ecosystem that includes salmonid or nonsalmonid fish;

(2) (a) formulate and adopt standards of water quality, giving consideration to the economics of waste treatment and prevention. When rules are adopted regarding temporary standards, they must conform with the requirements of 75-5-312.

(b) Standards adopted by the board must meet the following requirements:

(i) for carcinogens, the water quality standard for protection of human health must be the value associated with an excess lifetime cancer risk level, assuming continuous lifetime exposure, not to exceed 1 x 10-3 in the case of arsenic and 1 x 10-5 for other carcinogens. However, if a standard established at a risk level of 1 x 10-3 for arsenic or 1 x 10-5 for other carcinogens violates the maximum contaminant level ohtained from 40 CFR, part 141, then the maximum contaminant level must be adopted as the standard for that carcinogen.

(ii) standards for the protection of aquatic life do not apply to ground water.

(3) review, from time to time at intervals of not more than 3 years and, to the extent permitted by this chapter, revise established classifications of waters and adopted standards of water quality;

HeinOnline -- 1999 vol. III 2827 1999

(4) adopt rules governing the granting of mixing zones, requiring that mixing zones granted by the department be specifically identified and requiring that mixing zones have:

(a) the smallest practicable size;

(b) a minimum practicable effect on water uses; and

(c) definable boundaries;

(5) adopt rules implementing the nondegradation policy established in 75-5-303, including but not limited to rules that:

(a) provide a procedure for department review and authorization of degradation;

(b) establish criteria for the following:

(i) determining important economic or social development; and

(ii) weighing the social and economic importance to the public of allowing the proposed project against the cost to society associated with a loss of water quality;

(c) establish criteria for determining whether a proposed activity or class of activities, in addition to those activities identified in 75-5-317, will result in nonsignificant changes in water quality for any parameter in order that those activities are not required to undergo review under 75-5-303(3). These criteria must be established in a manner that generally:

(i) equates significance with the potential for harm to human health, *a beneficial use,* or the environment;

(ii) considers both the quantity and the strength of the pollutant;

(iii) considers the length of time the degradation will occur;

(iv) considers the character of the pollutant so that greater significance is associated with carcinogens and toxins that bioaccumulate or biomagnify and lesser significance is associated with substances that are less harmful or less persistent.

(d) provide that changes of nitrate as nitrogen in ground water are nonsignificant if the discharge will not cause degradation of surface water and the predicted concentration of nitrate as nitrogen at the boundary of the ground water mixing zone does not exceed:

(i) 7.5 milligrams per liter for nitrate as nitrogen sources other than domestic sewage;

(ii) 5.0 milligrams per liter for domestic sewage effluent discharged from a conventional septic system;

(iii) 7.5 milligrams per liter for domestic sewage effluent discharged from a septic system using level two treatment, which must be defined in the rules; or

(iv) 7.5 milligrams per liter for domestic sewage effluent discharged from a conventional septic system in areas where the ground water nitrate as nitrogen level exceeds 5.0 milligrams per liter primarily from sources other than human waste.

(6) to the extent practicable, ensure that the rules adopted under subsection (5) establish objective and quantifiable criteria for various parameters. These criteria must, to the extent practicable, constitute guidelines for granting or

HeinOnline -- 1999 vol. III 2828 1999

denying applications for authorization to degrade high-quality waters under the policy established in 75-5-303(2) and (3).

(7) adopt rules to implement this section."

Section 2. Section 75-5-308, MCA, is amended to read:

"75-5-308. Short-term water authorizations — water quality standards. *(1) Because these activities promote the public interest, the* ~~The~~ department may, *if necessary,* authorize short-term exemptions from the water quality standards ~~or short-term use that exceeds the water quality standards for the purposes of allowing construction,~~ *for the following activities:*

(a) emergency ~~environmental~~ remediation~~,~~ *activities that have been approved, authorized, or required by the department; and*

(b) ~~pesticide~~ application~~,~~ *of a pesticide that is registered by the United States environmental protection agency pursuant to 7 U.S.C. 136(a) when it is used to control nuisance aquatic organisms or to eliminate* ~~elimination of~~ undesirable and nonnative aquatic species~~, and treatment of water for the protection of public health~~.

(2) ~~The~~ *An* authorization must include conditions that minimize, to the extent ~~possible~~ *practicable,* the magnitude of any ~~standard violation~~ *change in the concentration of the parameters affected by the activity* and the length of time during which any ~~standard violation~~ *change* may occur. The authorization *must also include* conditions *that prevent significant risk to public health and that ensure that existing and designated uses of state water are protected and maintained upon completion of the activity* ~~must maximize the protection of state waters by ensuring the maintenance of beneficial uses immediately after the term of the authorization~~. Authorizations issued under this section may include conditions that require water quality or quantity monitoring and reporting. In the performance of its responsibilities under this section, the department may negotiate operating agreements with other departments of state government that are intended to minimize duplication in review of activities eligible for authorizations under this section.

(3) An authorization to use a pesticide does not relieve a person from the duty to comply with Title 80, chapters 8 and 15. The department may not authorize an exemption from water quality standards for an activity that requires a discharge permit under rules adopted by the board pursuant to 75-5-401."

Section 3. Section 75-5-316, MCA, is amended to read:

"75-5-316. Outstanding resource water classification — rules — criteria — limitations — procedure. (1) As provided under the provisions of 75-5-301 and this section, the board may adopt rules regarding the classification of waters as outstanding resource waters. ~~Neither this section nor rules adopted pursuant to this section apply to an activity that is identified as nonsignificant under 75-5-301(5)(c) and that is exempted from nondegradation review required under 75-5-303.~~

(2) The department may not:

(a) grant an authorization to degrade under 75-5-303 in outstanding resource waters; or

(b) ~~grant an authorization to degrade if that authorization would cause significant degradation, as defined by board rules adopted under 75-5-301(5), in outstanding resource waters~~ *allow a new or increased point source discharge that*

HeinOnline -- 1999 vol. III 2829 1999

would result in a permanent change in the water quality of an outstanding resource water.

(3) (a) A person may petition the board for rulemaking to classify waters as outstanding resource waters. The board shall initially review a petition against the criteria identified in subsection (3)(c) to determine whether the petition contains sufficient credible information for the board to accept the petition.

(b) The board may reject a petition without further review if it determines that the petition does not contain the sufficient credible information required by subsection (3)(a). If the board rejects a petition under this subsection (3)(b), it shall specify in writing the reasons for the rejection and the petition's deficiencies.

(c) The board may not adopt a rule classifying state waters as outstanding resource waters until it accepts a petition and finds that, based on a preponderance of the evidence:

(i) the waters identified in the petition constitute an outstanding resource based on the criteria provided in subsection (4);

(ii) the classification is necessary to protect the outstanding resource identified under subsection (3)(a); and

(iii) there is no other effective process available that will achieve the necessary protection.

(4) The board shall consider the following criteria in determining whether certain state waters are outstanding resource waters. However, the board may determine that compliance with one or more of these criteria is insufficient to warrant classification of the water as an outstanding resource water. The board shall consider:

(a) whether the waters have been designated as wild and scenic;

(b) the presence of endangered or threatened species in the waters;

(c) the presence of an outstanding recreational fishery in the waters;

(d) whether the waters provide the only source of suitable water for a municipality or industry;

(e) whether the waters provide the only source of suitable water for domestic water supply; and

(f) other factors that indicate outstanding environmental or economic values not specifically mentioned in this subsection (4).

(5) After acceptance of a petition, the board shall require the preparation of an environmental impact statement, as provided under Title 75, chapter 1, part 2, when classification as an outstanding resource water may cause significant adverse impacts to the environment, including significant adverse impacts to social or economic values.

(6) The board shall consult with other relevant state agencies when reviewing outstanding resource water classification petitions.

(7) (a) In accordance with 2-4-315, the board may deny an accepted outstanding resource water classification petition if it finds that:

(i) the requirements of subsection (3) have not been met; or

(ii) based on information available to the board from the environmental impact statement or otherwise, approving the outstanding resource waters

classification petition would cause significant adverse environmental, social, or economic impacts.

(b) If the board denies the petition, it shall identify its reasons for petition denial.

(8) A rule classifying state waters as outstanding resource waters under this section may he adopted but is not effective until approved by the legislature.

(9) The board may not postpone or deny an application for an authorization to degrade state waters under 75-5-303 hased on pending:

(a) hoard action on an outstanding resource water classification petition regarding those waters; or

(b) legislative approval of board action designating those waters as outstanding resource waters."

Section 4. Section 75-5-317, MCA, is amended to read:

"75-5-317. Nonsignificant activities. (1) The categories or classes of activities identified in subsection (2) cause changes in water quality that are nonsignificant hecause of their low potential for harm to human health or the environment and their conformance with the guidance found in 75-5-301(5)(c).

(2) The following categories or classes of activities are not subject to the provisions of 75-5-303:

(a) existing activities that are nonpoint sources of pollution as of April 29, 1993;

(b) activities that are nonpoint sources of pollution initiated after April 29, 1993, when reasonable land, soil, and water conservation practices are applied and existing and anticipated beneficial uses will be fully protected;

(c) use of agricultural chemicals in accordance with a specific agricultural chemical ground water management plan promulgated under 80-15-212, if applicable, or in accordance with an environmental protection agency-approved label and when existing and anticipated uses will be fully protected;

(d) changes in existing water quality resulting from an emergency or remedial activity that is designed to protect public health or the environment and is approved, authorized, or required by the department;

(e) changes in existing *ground* water quality resulting from treatment of a public water supply system, as defined in 75-6-102, or a public sewago system, as defined in 75-6-102, by chlorination or other similar means that is designed to protect the public health or the environment and that is approved, authorized, or required by the department;

(f) the use of drilling fluids, sealants, additives, disinfectants, and rehabilitation chemicals in water well or monitoring well drilling, development, or abandonment, if used according to department-approved water quality protection practices *and if no discharge to surface water will occur*;

(g) short-term changes in existing water quality resulting from activities authorized by the department pursuant to 75-5-308;

(h) land application of animal waste, domestic septage, or waste from public sewage treatment systems containing nutrients when the wastes are applied to the land in a beneficial manner, application rates are based on agronomic uptake of applied nutrients, and other parameters will not cause degradation;

HeinOnline -- 1999 vol. III 2831 1999

(i) incidental leakage of water from a public water supply system, as defined in 75-6-102, or from a public sewage system, as defined in 75-6-102, utilizing best practicable control technology designed and constructed in accordance with Title 75, chapter 6;

(j) discharges of water *to ground water* from water well or monitoring well tests, hydrostatic pressure and leakage tests, or wastewater from the disinfection or flushing of water mains and storage reservoirs, conducted in accordance with department-approved water quality protection practices;

(k) oil and gas drilling, production, abandonment, plugging, and restoration activities *that do not result in discharges to surface water and that are* performed in accordance with Title 82, chapter 10, or Title 82, chapter 11;

(l) short-term changes in existing water quality resulting from ordinary and everyday activities of humans or domesticated animals, including but not limited to:

(i) such recreational activities as boating, hiking, hunting, fishing, wading, swimming, and camping;

(ii) fording of streams or other bodies of water by vehicular or other means; and

(iii) drinking from or fording of streams or other bodies of water by livestock and other domesticated animals;

(m) coal and uranium prospecting *that does not result in a discharge to surface water, that does not involve a test pit located in surface water or that may affect surface water, and that is* performed in accordance with Title 82, chapter 4;

(n) solid waste management systems, motor vehicle wrecking facilities, and county motor vehicle graveyards licensed and operating in accordance with Title 75, chapter 10, part 2, or Title 75, chapter 10, part 5;

(o) hazardous waste management facilities permitted and operated in accordance with Title 75, chapter 10, part 4;

(p) metallic and nonmetallic mineral exploration *that does not result in a discharge to surface water and that is* permitted under and performed in accordance with Title 82, chapter 4, parts 3 and 4;

(q) ~~nonpoint sources of pollution that cause short-term changes in existing water quality resulting from:~~

~~(i) activities authorized under Title 75, chapter 7, part 1; or~~

~~(ii) customary activities involving the use of water established by an existing water right or permit recognized under Montana law~~ *stream-related construction projects or stream enhancement projects that result in temporary changes to water quality but do not result in long-term detrimental effects and that have been authorized pursuant to [section 5]*;

(r) diversions or withdrawals of water established and recognized under Title 85, chapter 2;

~~(r)~~*(s)* the maintenance, repair, or replacement of dams, diversions, weirs, or other constructed works that are related to existing water rights and that are within wilderness areas so long as existing and anticipated beneficial uses are protected and as long as the changes in existing water quality relative to the project are short term; and

HeinOnline -- 1999 vol. III 2832 1999

~~(s)~~*(t)* any other activity that is nonsignificant because of its low potential for harm to human health or to the environment and its conformance with the guidance found in 75-5-301(5)(c)."

Section 5. Short-term water qnality standards for turbidity. (1) Upon authorization by the department or the department of fish, wildlife, and parks pursuant to subsection (4), the short-term water quality standards for total suspended sediment and turbidity resulting from stream-related construction activities or stream enhancement projects are the narrative standards for total suspended sediment adopted by the board under 75-5-301. If a short-term narrative standard is authorized under this section, the numeric standard for turbidity adopted by the board under 75-5-301 does not apply to the affected water body during the term of the narrative standard.

(2) The department shall review each application for short-term standards on a case-by-case basis to determine whether there are reasonable alternatives that preclude the need for a narrative standard. If the department determines that the numeric standard for turbidity adopted by the board under 75-5-301 cannot be achieved during the term of the activity and that there are no reasonable alternatives to achieve the numeric standard, the department may authorize the use of a narrative standard for a specified term.

(3) Each authorization issued by the department must include conditions that minimize, to the extent practicable, the magnitude of any change in water quality and the length of time during which any change may occur. The authorization must also include site-specific conditions that ensure that the activity is not harmful, detrimental, or injurious to public health and the uses of state waters and that ensure that existing and designated beneficial uses of state water are protected and maintained upon completion of the activity. The department may not authorize short-term narrative standards for activities requiring a discharge permit under rules adopted by the board pursuant to 75-5-401. Authorizations issued under this section may include conditions that require water quality or quantity monitoring and reporting.

(4) In the performance of its responsibilities under this section, the department may negotiate operating agreements with other departments of state government that are intended to minimize duplication in review of activities eligible for authorizations under this section. The department of fish, wildlife, and parks may, in accordance with subsections (1), (2), and (3), authorize short-term water quality standards for total suspended sediment and turbidity for any stream construction project that it reviews under Title 75, chapter 7, part 1, or Title 87, chapter 5, part 5.

CHAPTER NO. 589

[SB 441]

AN ACT REQUIRING THE DEPARTMENT OF REVENUE, UNDER CERTAIN CONDITIONS, TO USE TWO OF THE THREE METHODS OF DETERMINING THE MARKET VALUE OF PROPERTY, WHICH INCLUDE THE CAPITALIZATION OF NET INCOME METHOD, THE SALES OF COMPARABLE PROPERTY METHOD, AND THE COST-LESS-DEPRECIATION METHOD, THAT PROVIDE A SIMILAR MARKET VALUE AS THE BETTER INDICATORS OF MARKET VALUE; AMENDING SECTION 15-8-111, MCA; AND PROVIDING AN APPLICABILITY DATE.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 15-8-111, MCA, is amended to read:

"15-8-111. Assessment — market value standard — exceptions. (1) All taxable property must be assessed at 100% of its market value except as otherwise provided.

(2) (a) Market value is the value at which property would change hands between a willing buyer and a willing seller, neither being under any compulsion to buy or to sell and both having reasonable knowledge of relevant facts.

(b) If the department uses construction cost as one approximation of market value, the department shall fully consider reduction in value caused by depreciation, whether through physical depreciation, functional obsolescence, or economic obsolescence.

(c) If the department uses the capitalization of net income method as one approximation of market value and sufficient, relevant information on comparable sales and construction cost exists, the department shall rely upon the two methods that provide a similar market value as the better indicators of market value.

~~(c)~~*(d)* Except as provided in subsection (3), the market value of special mobile equipment and agricultural tools, implements, and machinery is the average wholesale value shown in national appraisal guides and manuals or the value before reconditioning and profit margin. The department shall prepare valuation schedules showing the average wholesale value when a national appraisal guide does not exist.

(3) The department may not adopt a lower or different standard of value from market value in making the official assessment and appraisal of the value of property, except:

(a) the wholesale value for agricultural implements and machinery is the average wholesale value category as shown in Guides 2000, Northwest Region Official Guide, published by the North American equipment dealers association, St. Louis, Missouri. If the guide or the average wholesale value category is unavailable, the department shall use a comparable publication or wholesale value category.

(b) for agricultural implements and machinery not listed in an official guide, the department shall prepare a supplemental manual in which the values reflect the same depreciation as those found in the official guide; and

(c) as otherwise authorized in Titles 15 and 61.

HeinOnline -- 1999 vol. III 2836 1999

(4) For purposes of taxation, assessed value is the same as appraised value.

(5) The taxable value for all property is the percentage of market or assessed value established for each class of property.

(6) The assessed value of properties in 15-6-131 through 15-6-133 is as follows:

(a) Properties in 15-6-131, under class one, are assessed at 100% of the annual net proceeds after deducting the expenses specified and allowed by 15-23-503 or, if applicable, as provided in 15-23-515, 15-23-516, 15-23-517, or 15-23-518.

(b) Properties in 15-6-132, under class two, are assessed at 100% of the annual gross proceeds.

(c) Properties in 15-6-133, under class three, are assessed at 100% of the productive capacity of the lands when valued for agricultural purposes. All lands that meet the qualifications of 15-7-202 are valued as agricultural lands for tax purposes.

(d) Properties in 15-6-143, under class ten, are assessed at 100% of the forest productivity value of the land when valued as forest land.

(7) Land and the improvements on the land are separately assessed when any of the following conditions occur:

(a) ownership of the improvements is different from ownership of the land;

(b) the taxpayer makes a written request; or

(c) the land is outside an incorporated city or town."

SENATE JOINT RESOLUTION NO. 12

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA OBJECTING TO ANY ATTEMPT BY THE FEDERAL GOVERNMENT TO TAKE FROM THE STATES, TERRITORIES, COMMONWEALTHS, AND THE DISTRICT OF COLUMBIA, ANY OF THE PROCEEDS OF THE TOBACCO SETTLEMENT RECENTLY REACHED WITH THE TOBACCO COMPANIES AND URGING THE U.S. CONGRESS TO ACT TO PREVENT FURTHER ASSERTION OF THAT CLAIM.

WHEREAS, on November 23, 1998, 46 states, U.S. territories, commonwealths, and the District of Columbia reached a multibillion dollar settlement with six tobacco companies to end pending civil actions brought by the states claiming as damages money spent treating residents for injuries caused by smoking; and

WHEREAS, the United States has asserted a claim to over one-half of the settlement money, claiming that much of the money to be received by the states amounts to Medicaid overpayments and, as such, can be "recouped" by the federal government; and

WHEREAS, the record-setting settlement was achieved by the states, territories, commonwealths, and the District of Columbia through their efforts and their efforts alone, the federal government having played no role whatsoever in the proceedings leading to the settlement or the settlement negotiations; and

WHEREAS, having played no role in the lawsuits and settlements, any attempt by the United States to "recoup" the damages paid by the tobacco companies amounts to a seizure of money to which the states, territories, commonwealths, and the District of Columbia have a moral and legal claim; and

WHEREAS, there is bipartisan support forming in the U.S. Congress for the introduction of legislation to keep the United States from making good on its claim for recoupment; and

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the Montana Legislature convey to the U.S. Senate and House of Representatives its strong opposition to the taking by the federal government of any of the proceeds of the tobacco settlement.

SENATE JOINT RESOLUTION NO. 14

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA REQUESTING AN APPROPRIATE INTERIM COMMITTEE TO STUDY SENTENCING STATUTES, SENTENCING DATA INFORMATION COLLECTION AND MANAGEMENT, AND ISSUES RELATED TO SENTENCING.

WHEREAS, the Montana Sentencing Commission was formed in 1995 and after 18 months of study recommended continued work to develop an accurate database of criminal justice information and criminal sentencing practices, to determine what impacts sentencing laws and practices have on the state's criminal justice system and correctional resources, and to evaluate Montana's sentencing laws in order to achieve a simpler, more understandable sentencing system that results in consistent, effective, and fair administration of laws; and

WHEREAS, the 55th Legislature authorized a Correctional Standards and Oversight Committee for the 1997-1998 interim that continued to study sentencing issues and monitor the development of a sentencing database; and

WHEREAS, the Correctional Standards and Oversight Committee recommended legislation in the 1999 Legislature for an initial revision of statutes on criminal sentencing procedures in order to assist a future review of Titles 45 and 46, MCA; and

WHEREAS, the Correctional Standards and Oversight Committee report on the policies on good time credits indicated the belief that the Legislature needed to provide clearer statutory direction and parameters for sentencing and that an effort to review and revise sentencing statutes may be in order; and

WHEREAS, the 1995 Legislature adopted changes to sentencing laws that included ending good time credits for offenders and the dangerous offender law and enacted the two-strikes and three-strikes laws without critical data or analysis of the potential impact on the judicial system or correctional populations or resources; and

WHEREAS, the Legislature has appropriated significant funding to the Department of Corrections for technological purposes and the Legislative Finance Committee, the Legislative Audit Division, the Joint Oversight Committee on Management Systems, and the Correctional Standards and Oversight Committee have all raised concerns regarding the expenditure of those funds and the lack of progress and integration with other databases; and

WHEREAS, the Department of Justice and the Supreme Court Administrator's Office are also involved in criminal justice information management projects requiring oversight to ensure that integration and cooperation occurs among all agencies involved with court and criminal justice information; and

HeinOnline -- 1999 vol. III 2866 1999

WHEREAS, certain members of the judiciary have asked for clearer direction from the Legislature and for the ability to use judicial discretion and creative sanctions in the sentencing of offenders.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the Legislative Council be requested to designate an appropriate interim committee to:

(1) develop a felony crime seriousness ranking that provides for public safety and appropriate restoration of the victim and that can serve as the basis of a rational sentencing policy in Montana;

(2) review the sentencing statutes in Titles 45 and 46, MCA, and statutes in other titles of the MCA that contain criminal sentences and determine the extent to which the current sentence ranges and penalties conform te Article II, section 28, of the Montana Constitution, the correctional and sentencing policy in 46-18-101, MCA, and the crime seriousness ranking;

(3) assess the impact of mandatory minimum sentences, truth-in-sentencing laws, two-strikes and three-strikes laws, and the elimination of good time credits on the criminal justice system, including the impacts on sentencing practices and correctional resources in the state;

(4) consider requiring a period of mandatory postrelease supervision for any offender who is incarcerated and estimate the impact of that policy on the parole resources of the state;

(5) examine the effect of allowing deferred sentences for crimes that must be committed two, three, or four times before reaching felony status;

(6) review the provisions for and the use of sentence enhancements;

(7) examine the current statutory provisions for sentence review by the sentence review hoard of the Supreme Court and assess the adequacy of those provisions and of the resources available for sentence review;

(8) review the use of correctional resources in the state, including but not limited to intermediate sanctions such as probation, intensive supervision, and prerelease centers, as well as the use of parole and the amount of time served in prison or jail out of the total sentence imposed;

(9) report the results of its work and recommend to the 57th Legislature changes needed in Titles 45 and 46, MCA, to achieve a consistent, effective, and rational sentencing system and to maximize the use of available correctional resources in the state, including intermediate sanctions, minimum security correctional facilities, and sentence review resources;

(10) review and monitor the implementation of databases that involve court and criminal justice data to ensure that integration and cooperation is occurring and that the databases being developed will provide the Legislature with information on sentencing practices, sentence disparities, offender populations, the use of correctional facilities, intermediate sanctions, parole, and other information needed for the Legislature to make informed policy decisions on the state's correctional and sentencing statutes and their fiscal impact on corrections and on funding for the crimimal justice system and corrections programs.

BE IT FURTHER RESOLVED, that for the purposes of this study, subcommittees of the committee shall include, to the extent allowed by law, participants in the criminal justice system, including judges, probation and parole

officers, law enforcement, victims, prosecutors, defense attorneys, the department of corrections, the board of crime control, county commissioners, and other interested parties.

BE IT FURTHER RESOLVED, that the Legislative Council may accept gifts, grants, donations, and other funding that may become available to assist in this study.

BE IT FINALLY RESOLVED, that the committee hold public meetings around the state to gather public response and opinions on its work and recommendations for inclusion in the committee's deliberations, report, and recommendations.

SENATE JOINT RESOLUTION NO. 15

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA REQUESTING THAT THE LEGISLATIVE COUNCIL DIRECT THE APPROPRIATE INTERIM COMMITTEE TO STUDY THE CURRENT LEVEL OF BENEFITS PAID TO INJURED WORKERS UNDER THE WORKERS' COMPENSATION ACT AND THE FREQUENCY OF INDEMNITY CLAIMS UNDER THE WORKERS' COMPENSATION ACT; AND REQUIRING A REPORT OF THE FINDINGS OF THE STUDY AND RECOMMENDATIONS TO THE 57TH LEGISLATURE.

WHEREAS, since 1993, Montana's workers' compensation premium rates have decreased at a far greater pace than in the surrounding region and loss costs have been reduced by 46% since 1994; and

WHEREAS, despite the reduction in premium rates, Montana's average loss cost rates are currently 195% of tbe average in the region, which includes the states of Arizona, Colorado, Idaho, New Mexico, Oregon, South Dakota, and Utah; and

WHEREAS, because Montana has one of the lowest average weekly wage levels in the region, the state's maximum permanent partial weekly benefit of $205.50 is the lowest maximum indemnity benefit amount in the region; and

WHEREAS, despite the lowest maximum permanent partial indemnity benefit level in the region, Montana pays out 86% of the regional claim payment average for each 100,000 workers; and

WHEREAS, although the frequency of permanent partial claims has decreased from 1,468 for each 100,000 workers in 1994 to 832 for each 100,000 workers in 1996, the frequency of tbese claims is approximately twice the regional averago of 473 for each 100,000 workers; and

WHEREAS, the high frequency of claims, especially for permanent partial injury claims, may be directly related to the facts that Montana's economy is more concentrated in higher hazard employments, that the Montana economy provides fewer opportunities for alternative work or light duty once a worker is injured, and that Montana has the bighest percentage of individuals holding multiple jobs, making reemployment after an injury at the same wage levels less likely.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

HeinOnline -- 1999 vol. III 2868 1999

(1) That the appropriate interim committee study the current workers' compensation benefit levels for permanent total, permanent partial, and temporary total indemnity claims and the frequency of claims for each lost time claim.

(2) That the appropriate interim committee provide a report to the 57th Legislature of the committee's recommendations on whether any adjustment of workers' compensation benefit levels is advisable and its recommendations for reducing the frequency of all injury claims, with particular focus on reducing the high number of permanent partial indemnity claims.

WHEREAS, many legislators and interested parties concluded that the magnitude and complexity of MEPA implementation and policy issues deserve careful and deliberative study; and

WHEREAS, the Legislature of the State of Montana is a member of the Legislative Council on River Governance, which also includes the States of Idaho, Washington, and Oregen; and

WHEREAS, the purpose of the Legislative Council on River Governance is to assert state legislative duty and authority over natural resources and river governance and to unite states for a proactive agenda of legislative action and communications; and

WHEREAS, the State of Montana, like the State of Idaho, has a vested interest in federal and regional decisions concerning water flows in the Columbia River Basin that could affect the Clark Fork and Kootenai Rivers; and

WHEREAS, the State of Montana, like the State of Idaho, supports the continued multiple use of the Columbia River tributaries for fish and wildlife, hydropower generation, irrigation, transportation, flood control, municipal use, and recreation; and

HeinOnline -- 1999 vol. III 2871 1999

WHEREAS, the State of Montana, like the State of Idaho, recognizes the importance of multiple uses of water within the Columbia River Basin; and

WHEREAS, the State of Montana, like the state of Idaho, has concerns about the impacts of anadromous fish enhancement efforts on resident fisheries and water within the respective states; and

WHEREAS, the State of Montana, like the State of Idaho, believes that the native anadromous fish decline is due to many factors, some of which are diminished babitat, increased predation, unfavorable ocean conditions, hatchery practices, harvest impacts, and changing climatic conditions, as well as hydropower generating dams; and

WHEREAS, the State of Montana, like the State of Idabo, recognizes the need to protect and enbance native anadromous fish populations and will work to accomplish this while also protecting tbe needs of the citizens of each state; and

WHEREAS, integrated rule curves for the operation of Libby Dam and Hungry Horse Dam improve dam operational practices to provide more favorable biological conditions for resident fish in those reservoirs and affected river reaches and help balance conditions for anadromous and resident fish so tbat the recovery of one is not pursued at the expense of the other; and

WHEREAS, integrated rule curves were developed by the State of Montana and the Confederated Salish and Kootenai Tribes, adopted by the Northwest Power Planning Council in its fish and wildlife program, and were ordered on January 19, 1999, by Federal Magistrate Bart Erickson of Missoula to be considered by the United States Army Corps of Engineers and the Bureau of Reclamation at each relevant stage of decisionmaking processes, including in-season decisions, regarding the operation of Hungry Horse and Libby Dams.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That federal and state enhancement efforts for native anadromous fish must be undertaken in a manner that protects state sovereignty over water resources and balances tbe needs of anadromous fish with tbe needs of resident fish and wildlife. In Montana, this balance is best achieved through implementation of integrated rule curves at Libby and Hungry Horse Dams.

BE IT FURTHER RESOLVED, tbat tbe State of Montana support the State of Idaho's call for further study of tbe effectiveness of flow augmentation for anadromous fish recovery.

BE IT FURTHER RESOLVED, that the Secretary of State send copies of tbis resolution to the Montana Congressional Delegation, the Idaho State Legislature, and the directors of the National Marine Fisheries Service, the United States Army Corps of Engineers, and the United States Bureau of Reclamation.

The chair may then rule that unless excused those not standing and present have voted on the prevailing side of the question and that their vote be recorded as such. If there was a unanimous voice vote, all those present will be recorded as having voted for the question.

(2) Except as provided in subsection (3), if a motion to recommend that a bill "do pass" or "be concurred in" fails in the Committee of the Whole, the obverse, i.e., a recommendation that the bill "do not pass" or "he not concurred in", is considered to have passed. (3) If a motion under subsection (2) fails on a tie vote, the bill remains on second reading.

S50-130. Committee of the Whole amendments. (1) All Committee of the Whole amendments shall be prepared, stipulating the date and time of preparation and staff approval, and delivered to the Secretary of the Senate for reading before the amendment is voted on.

If the vote is other than unanimous, the chair may ask that the lesser number on the question indicate their vote by standing. The Secretary will then record the vote of those standing. The chair may then rule that unless excused those not standing and present have voted on the prevailing side of the question and that their vote be recorded as such. If there was a unanimous voice vote, all those present will be recorded as having voted for the question.

SENATE RESOLUTION NO. 2

A RESOLUTION OF THE SENATE OF THE STATE OF MONTANA CLARIFYING CERTAIN SENATE RULES.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF THE STATE OF MONTANA:

That the following changes he made to the Senate rules adopted in Senate Resolution No. 1:

S30-60. Committee reports to Senate. (1) Reports of standing committees shall be read on Order of Business No. 2, and no debate may be had on any report unless a minority report has been submitted. A minority report is submitted after a majority report.

(2) Committee reports may recommend approval or disapproval, with or without amendment. They may not be reported to the Senate without recommendation.

(3) Any Senator seeking a reconsideration of the Senate's action on the adoption of a committee report shall do so on Order of Business No. 6 by motion to reconsider. Any Senator may make such motion and need not have voted on the prevailing side. This rule applies notwithstanding any joint rule to the contrary.

(4) The Rules Committee and conference committees may report at any time, except during a call of the Senate or when a vote is heing taken.

S50-90. Reconsideration. (1) Any Senator may, on tbe day the vote was taken or on the next day the Senate is in session, move to reconsider the question. A motion to reconsider is a debatable motion, but the debate is limited to the motion. The debate on a motion to reconsider may not address the substance of the matter for which reconsideration is sought.

(2) A motion to reconsider may not be withdrawn after such next legislative day without the unanimous consent of the Senate, and thereafter any Senator

HeinOnline -- 1999 vol. III 2890 1999

may call it up for consideration; however, a motion to reconsider made after the 54th day of the session shall be disposed of when made.

(3) A motion to recall a bill from the House of Representatives constitutes notice to reconsider and shall be acted on as a motion to reconsider. A motion to reconsider or to recall a bill from the House of Representatives may be made only under Order of Business No. 6 and, under that order of business, takes precedence over all motions except motions to recess or adjourn.

(4) When a motion to reconsider is laid on the table, a two-thirds majority is required to take it from the table. When a motion to reconsider fails, the question is finally and conclusively settled.

(5) If a motion to reconsider third reading action is carried, there shall be no further action until the succeeding legislative day.

S50-120. Second reading. (1) The Senate may resolve itself into a Committee of the Whole for consideration of business on second reading, by approval of a motion for that purpose.

(2) After a Committee of the Whole has been formed, the President shall appoint a chair to preside.

(3) All legislation considered in the Committee of the Whole shall be read by a summary of its title. Proposed amendments shall be considered; then the bill shall be considered in its entirety.

(4) Prior to adoption of the Committee of the Whole report, a Senator may move to segregate legislation. If the motion prevails, the legislation remains on second reading.

(5) When a Committee of the Whole report on legislation is rejected, the legislation shall remain on second reading.

S50-160. Voting on second reading. (1) On Order of Business No. 8, in addition to other methods, a recorded vote may be made in the following manner: the chair may call for a voice vote to accept or reject a question. If the vote is other than unanimous, the chair may ask that the lesser number on the question indicate their vote by standing. The Secretary will then record the vote of those standing. The chair may then rule that unless excused those not standing and present have voted on the prevailing side of the question and that their vote be recorded as such. If there was a unanimous voice vote, all those present will be recorded as having voted for the question.

(2) A motion on second reading must be disposed of by a positive vote.

S50-210. House amendments to Senate legislation. (1) When the House has properly returned Senate legislation with House amendments, the Senate shall announce the amendments on Order of Business No. 5 and the President shall place them on second reading for debate. The President may rerefer Senate legislation with House amendments to a committee for a hearing if the House amendments constitute a significant change in the Senate legislation. The second reading vote is limited to consideration of the House amendments.

(2) If the Senate accepts House amendments, the Senate shall place the final form of the legislation on third reading to determine if the legislation, as amended, is passed or if the required vote is obtained.

HeinOnline -- 1999 vol. III 2891 1999

(3) If the Senate rejects the House amendments, the Senate may request the House to recede from its amendments or may direct appointment of a conference committee and request the House to appoint a like committee.

GENERAL FUND REVENUE

The projections for total general fund revenue during the 2000-01 biennium are based on an assumption of a continuation of Montana law as it existed on

HeinOnline -- 1999 vol. III 2911 1999

January 1, 1999. The revenue estimates contained in the following tables are based on the assumptions stated previously in this resolution, the assumptions listed in the tables that follow the general fund estimates, and the assumptions contained in the revenue detail report prepared by the Legislative Fiscal Division. Actual individual tax income collections for fiscal year 1999 are currently exceeding projected collections. The adjustment to estimated individual income tax collections for fiscal year 1999 does not impact the assumptions of other projections.

HOUSE JOINT RESOLUTION NO. 3

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA REQUESTING THE ENVIRONMENTAL QUALITY COUNCIL TO COORDINATE WITH OTHER APPROPRIATE AGENCIES TO STUDY THE NEED FOR AND UTILITY OF TAX AND OTHER TYPES OF FINANCIAL INCENTIVES TO ENCOURAGE VOLUNTARY CLEANUP AND REDEVELOPMENT OF CONTAMINATED PROPERTIES WITHIN MONTANA.

WHEREAS, there are properties in Montana where use is limited because of environmental contamination of soil, air, surface water, or ground water; and

WHEREAS, the expense of cleanup and the uncertainty over potential liability for contamination are common barriers to redevelopment and reuse of these properties, especially for small businesses; and

WHEREAS, although a federal tax incentive program exists to encourage redevelopment of contaminated properties, only certain types of properties, with certain characteristics, convey eligibility for tax credits under the federal program; and

HeinOnline -- 1999 vol. III 2920 1999

WHEREAS, there appears to be increased interest in Montana in potentially redeveloping contaminated properties; and

WHEREAS, as in other states, additional state tax credits or other financial incentives might increase the likelihood that contaminated properties in Montana could be cleaned up and redeveloped into income-supporting community amenities, rather than lying idle and unaddressed; and

WHEREAS, Montana needs policy mechanisms that simultaneously improve and contribute to the long-term integrity of the environment, the economy, and the communities in which we all live.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the Legislature request the Environmental Quality Council to make a priority of coordinating with the Departments of Environmental Quality, Commerce, and Revenue to conduct a study to determine the need for and potential utility of tax and other types of financial incentives to encourage voluntary cleanup and redevelopment of contaminated properties within Montana. Incentives should be structured in a way to ensure that only persons with no prior connection to a property, and who did not contribute to its contamination, are eligible to benefit from the incentives. Potential study components may include:

(1) the number, type, and distribution of contaminated properties in Montana and the severity of their contamination in relation to public health, safety, or welfare or environmental risks;

(2) how existing state policies and programs contribute to or restrict redevelopment of contaminated properties in Montana;

(3) what gaps or disincentives there may be in current environmental or financial policies that limit the ability of Montanans to simultaneously improve their environment, economy, and communities through the redevelopment of contaminated properties;

(4) the scope, applicability, use, and benefits or drawbacks of the federal tax incentive program in Montana, including any potential conflicts with state policy or inherent limitations on applicability to property types in Montana;

(5) what can be learned from the experiences of other states attempting to resolve similar issues;

(6) what level of public investment is justified to encourage redevelopment; and

(7) what administrative or legislative options should be suggested to the Legislature and others to enhance the availability of tax or other financial incentives to encourage voluntary cleanup and redevelopment of contaminated properties in Montana.

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA OBJECTING TO THE RELEASE OF GRIZZLY BEARS INTO THE SELWAY-BITTERROOT

HeinOnline -- 1999 vol. III 2921 1999

WILDERNESS AND FRANK CHURCH RIVER-OF-NO-RETURN WILDERNESS; URGING AN END TO CONTROL OF GRIZZLY BEAR POPULATION MANAGEMENT BY THE UNITED STATES FISH AND WILDLIFE SERVICE AND THE RETURN OF GRIZZLY BEAR MANAGEMENT TO THE FISH AND GAME AGENCIES OF THE AFFECTED STATES; REQUESTING REMOVAL OF THE GRIZZLY BEAR FROM THE LIST OF THREATENED OR ENDANGERED SPECIES BASED UPON EVIDENCE OF POPULATION VIABILITY; AND URGING THE ACCEPTANCE OF LIABILITY FOR DAMAGES FROM THE GRIZZLY BEAR RECOVERY PROGRAM BY THE UNITED STATES GOVERNMENT IF INTRODUCTION MEASURES ARE UNDERTAKEN SUCCESSFULLY.

WHEREAS, it is widely believed that the grizzly bear is classified as "threatened" or "endangered" only as a result of an arhitrary designation of habitat areas by the United States Fish and Wildlife Service (USFWS) and that the grizzly bear is, in reality, neither "threatened" nor "endangered" because the State of Montana successfully maintained a viable, breeding population of grizzly bears for years prior to the arbitrary USFWS classification; and

WHEREAS, grizzly bear populations continue to thrive, breeding and maintaining their populations in suitable habitat in other areas; and

WHEREAS, the habitat in the Selway-Bitterroot Wilderness is considered to he an inadequate ecosystem for supporting grizzly hears; and

WHEREAS, predation by grizzly bears is known to impose uncompensated costs and hazards to livestock growers and other citizens; and

WHEREAS, enforcement by federal agencies of arbitrary and capricious rules and regulations devised to exclude any real or imagined intrusion or disturbance to grizzly bears in recovery areas has caused the loss of many millions of dollars in personal and corporate income, the loss of many jobs, the displacement of families, the loss of needed revenue to the State of Montana, and the virtual closing of large areas of national forest land in Montana to traditional uses, such as lumbering, driving for pleasure, gathering firewood, and berry picking; and

WHEREAS, the Selway-Bitterroot and Frank Church River-of-No-Return wilderness complex is the only remaining wilderness in the geographical area where wilderness travelers can pursue a wilderness experience without fear of encountering grizzly bears; and

WHEREAS, introduction of grizzly bears into the Selway-Bitterroot Wilderness will complicate or further frustrate efforts to increase populations of anadromous salmon tbat traditionally spawn in the rivers and streams of the Selway-Bitterroot Wilderness; and

WHEREAS, introduction of grizzly bears into the Selway-Bitterroot and Frank Church River-of-No-Return wilderness complex will further increase the rate of bear predation of the northern Idaho elk herd, a herd tbat is an important asset to outfitters, guides, and residents of western Montana and northern Idaho; and

WHEREAS, social benefits derived from the bear introduction program are drastically out of proportion to the costs to the public of capturing, transporting, examining, releasing, monitoring, and otherwise managing an introduced population of grizzly bears, and those funds are more urgently needed to help finance real and essential social programs; and

HeinOnline -- 1999 vol. III 2922 1999

WHEREAS, programs undertaken under the authority of Public Law 93-205, the federal Endangered Species Act of 1973, including the grizzly bear recovery program, place the lives, property, and freedom of local citizens and visitors in jeopardy of the wrath of the United States government in the event of accidental or mistaken actions by citizens that could be judged as infringement on a listed species or the habitat of a listed species and further expand the body of laws and regulations of which United States citizens might become victims when applied.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

(1) That grizzly bears not be released into the Selway-Bitterroot and Frank Church River-of-No-Return wilderness complex as part of the federal grizzly bear recovery program.

(2) That control of grizzly bear populations by the United States Fish and Wildlife Service be ended and that the management of grizzly bears within the borders of Montana and Idaho be returned to the fish and wildlife agencies of those respective states.

(3) That the grizzly bear be removed from the list of threatened or endangered species, based on evidence of the viability of grizzly bear populations in Montana, Idaho, Wyoming, Alaska, and Canada.

(4) That if the United States gevernment persists in its proposal to introduce grizzly bears into the Selway-Bitterroot and Frank Church River-of-No-Return wilderness complex and succeeds in placing grizzly bears in those areas, the United States government be held financially liable for any damages to livestock and other domestic animals and to property, for loss of life, and for personal injury arising from the actions of the grizzly bears and of United States government agents engaged in the grizzly bear recovery program, including economic losses suffered by individuals or communities as a result of actions related to the program.

(5) That the Secretary of State send copies of this resolution to the members of the Montana and Idaho Congressional Delegations, the Director of the United States Fish and Wildlife Service, the President of the United States Senate, and the Speaker of the United States House of Representatives.

WHEREAS, the Brady Law imposes federal restrictions on the ability of the people of Montana to obtain personal firearms; and

WHEREAS, the people of Montana have a long and honorable tradition of law-abiding ownership and use of firearms; and

HeinOnline -- 1999 vol. III 2923 1999

WHEREAS, the unquestioned ability of lawful Montana citizens to obtain personal firearms has always been a significant feature of the culture of the people of Montana and a personal and individual right; and

WHEREAS, the people of Montana do not lightly accept outside influence that imposes significant changes on Montana traditions, culture, and individual and state rights; and

WHEREAS, Article II, section 12, of the Montana Constitution states that "The right of any person to keep or bear arms in defense of his own home, person, and property, or in aid of the civil power when thereto legally summoned, shall not be called in question, but nothing herein contained shall be held to permit the carrying of concealed weapons"; and

WHEREAS, the Attorney General of the State of Montana has said in reference to the Brady Law in his amicus appearance in Printz v. United States: "... Congress has unconstitutionally attempted to make the States mere administrative subdivisions of the federal government contrary to the sovereign powers reserved to them by the Tenth Amendment"; and

WHEREAS, the Brady Law is unnecessary for the people of Montana, is unwanted in Montana, is erosive of the authority reserved to Montana by the 10th amendment to the United States Constitution, is hostile to the spirit and intent of Montana's Compact with the United States, and is in conflict with the Montana Constitution; and

WHEREAS, there are problems with instant check systems, compilations of information on citizens, and fees levied for the checks.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

(1) That Congress is hereby notified that Montana is a claimant of its full sovereignty, the rights reserved to Montana by the United States Constitution, and the rights and prerogatives contained in and implied by Montana's Compact with the United States and is therefore urged to repeal the Brady Law.

(2) That the Secretary of State send copies of this resolution to the Montana Congressional Delegation with a request that this resolution be entered in the Congressional Record.

WHEREAS, by law, the Board of Investments is allowed to direct 25% of the permanent coal tax trust fund toward Montana investment opportunities; and

HeinOnline -- 1999 vol. III 2924 1999

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the Board of Investments be encouraged to increase the amount of the coal tax trust fund invested in Montana enterprises in order to reach the maximum statutory limit for prudent and productive investment in Montana's economic future.

WHEREAS, a recent designation of a portion of Kamchatka as a World Heritage Site was followed immediately hy efforts from environmental groups to block investment insurance for development projects on Kamchatka that are supported by the local communities; and

WHEREAS, these international designations could be used to harass or block any commercial activity, including pipelines, railroads, and power transmission lines; and

WHEREAS, the President and the Executive Branch of the United States have, by executive order and other agreements, implemented these designations without approval by Congress; and

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

WHEREAS, the western states are geographically, hydrologically, and economically diverse and distinct from each other and from the eastern states; and

WHEREAS, the western states have developed and customized a system of water allocation under the prior appropriation doctrine in response to the arid conditions of the region; and

WHEREAS, water resources in many of the major interstate river basins in the West are apportioned and administered through interstate and other compacts or court decrees between two or more states; and

WHEREAS, there has been a long-standing policy of federal deference to the states in the areas of water resources administration, management, allocation, and protection; and

WHEREAS, the western states have extensive experience in managing water resources, both surface and ground water supplies, and recognize the importance of protecting their water resources for present and future beneficial uses; and

WHEREAS, all western states have a system of law for allocation of water rights, and there is broad consensus within the federal system that states should continue to have the exclusive responsibility to create and administer water rights; and

WHEREAS, state water law provides for public participation and is based upon the allocation, transfer, and protection of water resources in the public interest; and

WHEREAS, the number of federal agencies involved in some aspect of water policy or management continues to increase, adding duplication, confusion, and conflicting missions to the historic state systems; and

WHEREAS, the U.S. Congress often considers legislation related to water resources management, some of which contains elements that could increase the

federal role in water administration and conflict with the state's responsibility for water programs.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That Montana's Congressional Delegation be respectfully requested to advocate to the appropriate federal agencies that any new or revised federal legislation or policy should:

(1) recognize that water resources administration, management, allocation, and protection are primarily the responsibility of the states and that federal policy should be supportive of this role of the western states;

(2) provide flexibility for states to continue to develop and refine water resource programs appropriate for their own circumstances, taking into consideration items such as hydrology, existing water rights, potential development of the area, interstate and other compact obligations, and the public interest;

(3) require all federal agencies to conduct their activities in accordance with, and in support of, state water resource programs and state water law; and

HOUSE JOINT RESOLUTION NO. 15

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA URGING MONTANA TO PARTICIPATE IN, SUPPORT, AND ENCOURAGE THE LOCATION OF A 21ST CENTURY SPACEPORT AND TECHNOLOGY FACILITY IN MONTANA, TO NURTURE AN ECONOMIC AND REGULATORY ENVIRONMENT THAT WILL ATTRACT VENTURESTAR AND ITS SPACE-RELATED BUSINESSES TO MONTANA, AND TO WELCOME

HeinOnline -- 1999 vol. III 2931 1999

LOCKHEED MARTIN, ITS PARTNERS, AND OTHER SPACE-RELATED INDUSTRIES TO MONTANA.

WHEREAS, every generation that dares to take a first step in a bold new venture changes the world; and

WHEREAS, Lockheed Martin and its partners, including NASA, have embarked on a bold new venture to produce and operate the VentureStar spaceplane, which will change how we travel to and from space; and

WHEREAS, the International Space Station (ISS) is one of the largest and most complex multinational scientific endeavors ever undertaken; and

WHEREAS, Montana's northern latitude and elevation is ideal for launches above 45 degrees inclination to the ISS and other Low Earth Orbits (LEO), including polar; and

WHEREAS, the current fleet of American spacelift vehicles is expensive to operate and maintain and other countries have reduced the cost per pound to orbit to a cost that is below that of American providers; and

WHEREAS, the United States has made it a national priority to compete, reduce operational costs, and maintain our ability to use space as a national asset so that others cannot exert dominance over this vital resource; and

WHEREAS, Lockheed Martin has asked for Requests for Qualification be submitted by interested states as potential launch and landing sites or spaceports and Montana has submitted four site proposals; and

WHEREAS, Montana's environment is ideal for providing cost-effective spacelift operations and for building a major launch and landing facility because of a sparse population; less vulnerability to large earthquakes; a slow steady wind, dry climate, and clear skies to maximize launch window availability and offer conditions that reduce corrosion concerns and costs; minimal lightning concerns; no hurricanes; and very few tornados or other severe weather patterns; and

WHEREAS, the geology of Montana makes earthquake damage a remote possibility while providing a good base for construction of a major launch and landing facility; and

WHEREAS, the cost of utilities is very competitive because the cost of electricity in Montana is among the lowest in the nation, the cost of natural gas in Montana is far below the national average, and water is inherently inexpensive and abundant; and

WHEREAS, Montana is also within reasonable traveling distance of other high-technology centers along the Rocky Mountain Front from Edmonton to Colorado Springs; and

WHEREAS, Montana's workforce is well-educated, embraces a strong work ethic, and demonstrates a concern for community, state, and company success that is unequaled; and

WHEREAS, the Montana university system is highly regarded for its engineering and business programs with rapidly expanding high-technology programs, which produce talented graduates eager to find worthy employment so they can remain in Montana; and

WHEREAS, Montana attracts dedicated employees who want to raise their families in the safe and wholesome lifestyle that Montana provides; and

HeinOnline -- 1999 vol. III 2932 1999

WHEREAS, the funds managed by the Montana Board of Investments, the Montana Coal Tax Trust Fund, and other capital resources, which together exceed several billion dollars, can help provide a strong economic foundation to spur new business growth and improve Montana's infrastructure; and

WHEREAS, the people of Montana seek to diversify and expand the economy of Montana to better position the state to withstand the market swings of a world economy; and

WHEREAS, the assets and objectives of Montana, combined with the needs and objectives of Lockheed Martin, its partners, and the VentureStar, can create a dynamic partnership for a spaceport in Montana; and

WHEREAS, it is the intent of the Legislature and of the Governor that Montana's state agencies concentrate their resources in a spirit of cooperation with private business to bring the VentureStar and other space-related industries to Montana; and

WHEREAS, it is the intent of the Legislature that the Board of Investments give special consideration to all projects that would further the goal of hringing VentureStar to Montana.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the people of Montana embrace the opportunity to become a partner in helping to lower the costs of space access and endeavor to nurture an economic and regulatory environment that will attract VentureStar and its space-related businesses and industries to Montana.

BE IT FURTHER RESOLVED, that the people of Montana welcome Lockheed Martin, Sverdrup, Allied Signal, Boeing, BF Goodrich Aerospace, NASA, Skunk Works, the 15 nations of the International Space Station Consortium, and VentureStar as partners and family to their 21st Century home, Montana.

HOUSE JOINT RESOLUTION NO. 17

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA URGING THE FEDERAL GOVERNMENT TO TAKE CERTAIN ACTIONS CONCERNING THE INTERIOR COLUMBIA BASIN ECOSYSTEM MANAGEMENT PROJECT.

WHEREAS, the President of the United States, by Executive Order, initiated the Interior Columbia Basin Ecosystem Management Project (ICBEMP) to create a scientifically sound, legally defensible, ecosystem management plan; and

WHEREAS, the ICBEMP was to be a broad-scale, 12-month project that would give general direction to public land managers for ecosystem management but has become a top-down, highly prescriptive set of management directives; and

WHEREAS, the managoment direction provided by the ICBEMP does not match the purpose and need statements made in the environmental impact

HeinOnline -- 1999 vol. III 2933 1999

statement (EIS), which were to restore and maintain a healthy forest, to provide sustainable and predictable levels of products and services, and to support economic and social needs of people, cultures, and communities; and

WHEREAS, the Columbia Basin ecosystem is a very diverse and complex environment, and basinwide standards could be a detriment to some or all forest-dependent and range-dependent economies; and

WHEREAS, experts maintain that the ICBEMP violates the Multiple-Use Sustained-Yield Act of 1960, the National Forest Management Act of 1976, the Forest and Rangeland Renewable Resource Planning Act of 1974, the Regulatory Flexibility Act, and the Small Business Regulatory Enforcement Fairness Act of 1996; and

WHEREAS, the ICBEMP was intended to be a scientifically sound management plan but has become politically based on selective science, which supports predetermined preservation goals with a top-down, one-size-fits-all, highly prescriptive set of management objectives and standards; and

WHEREAS, the recent interim roadless policy proposed by federal agencies indicates a strong desire to create de facto wilderness areas and circumvent the authority of Congress (in direct violation of the previously listed laws) and indicates the political direction incorporated into the ICBEMP, which obfuscates the tireless, good faith efforts of local representatives who participated in the ICBEMP process; and

WHEREAS, public lands administered by the U.S. Forest Service and U.S. Bureau of Land Management (BLM) are to be managed for multiple use for the benefit of the citizens of the United States, and road closures proposed within the ICBEMP EIS preferred alternative will severely limit the multiple use of millions of acres of public land; and

WHEREAS, current road closures already dramatically limit physical and financial abilities to control noxious weeds, and the ICBEMP-proposed further closures pose a serious threat of further and more serious weed encroachment into Montana's forests and grasslands; and

WHEREAS, the ICBEMP has become a political document, rather than a resource management planning document; and

WHEREAS, the ICBEMP contains too many economic assumptions and too few economic projections based on accurate information; and

WHEREAS, implementation of the ICBEMP will directly affect management of 16 BLM districts and 30 national forests, all in the western United States; and

WHEREAS, the ICBEMP coverage extends to 104 counties and 144 million acres of land (72 million acres of which are private), and the ICBEMP implementation will directly and indirectly affect the livelihoods of millions of citizens in the planning area; and

WHEREAS, a major component of the basic economies of about two-thirds of the affected rural and natural resource-dependent counties would be directly and potentially severely impacted by implementation of the ICBEMP; and

WHEREAS, the citizens of Montana, Montana's local government units, and Montana's communities have a direct interest in public land management that produces payments in lieu of taxes and (most importantly) forest receipts that

HeinOnline -- 1999 vol. III 2934 1999

generate revenue to the federal treasury and significantly contribute to funding public schools and roads; and

WHEREAS, it is questionable whether Congress will fund the ICBEMP implementation, and the impacts of inadequate implementation funding would be significantly more disastrous for natural resources than if implementation were fully funded; and

WHEREAS, the citizens of the United States and communities throughout the western United States depend on the stewardship, sustained yield, and even-flow production of goods and services from multiple-use management of public lands located in those states; and

WHEREAS, there is increasing national and world demand for renewable, recyclable goods and services, including recreation, wildlife, fisheries, food, fiber, clean air, and clean water; and

WHEREAS, in Montana, the U.S. Forest Service has reduced timber harvest by over 50% since 1950, even though wood is the preferred raw material for home building, and transferred global environmental consequences were never discussed or considered when decisions were being made to reduce budgets; and

WHEREAS, domestic raw materials production is being increasingly restricted in the United States, even in light of rising domestic consumption and the United States' position as a massive net importer of raw materials; and

WHEREAS, decisions are being made on a daily basis and at all levels of government to restrict raw materials production, almost always on environmental grounds, yet consumption is virtually never discussed; and

WHEREAS, the ICBEMP draft documents fail to adequately and truthfully define and disclose the economic, environmental, and social conditions of Montana's communities and local government units and the future effects on these entities of implementation of the proposed ecosystem management practices; and

WHEREAS, the ICBEMP represents a top-down management paradigm that reduces or eliminates effective local input to natural resource management and environmental decisionmaking; and

WHEREAS, the ICBEMP has become a 6-year, over $40 million project, with no end in sight.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the federal government be strongly urged to:

(1) terminate the ICBEMP and issue no Record of Decision on the ICBEMP;

(2) forward the accurate ecosystem management data developed through the ICBEMP to relevant BLM district managers and U.S. Forest Service forest supervisors;

(3) ensure that all public comments on the ICBEMP be incorporated into the public record for the ICBEMP;

(4) forward to district managers and supervisors the public comments provided on the ICBEMP for the managers' and supervisors' consideration related to updates to the land and resource management plans required by federal law; and

HeinOnline -- 1999 vol. III 2935 1999

(5) coordinate plan revisions between adjoining management units to provide consistency and connectivity and to consider cumulative impacts in dealing with broad-scale issues that affect multiple jurisdictions.

BE IT FURTHER RESOLVED, that federal natural resource planning and environmental management feature site-specific management decisions made by local decisionmakers, local citizenry, and parties directly and personally affected by these decisions for our public lands.

BE IT FURTHER RESOLVED, that the federal government acknowledge that the alternatives presented in the ICBEMP EIS are inconsistent with but should be consistent with the balanced "Purpose of and Need for Action" statements in the same documents, which are:

(1) "restore and maintain long-term ecosystem health and ecological integrity" (i.e., restore and maintain a healthy forest); and

(2) "support economic and/or social needs of people, cultures, and communities, and provide sustainable and predictable levels of products and services from our public lands administered by the Forest Service or BLM ...".

BE IT FURTHER RESOLVED, that copies of this resolution be sent by the Secretary of State to the President of the United States, the Vice President of the United States, the Secretary of Agriculture, the Secretary of the Interior, the presiding officers of the Appropriations Committees of the U.S. Senate and U.S. House, the Montana Congressional Delegation, the Chief of the Forest Service, and the Director of the Bureau of Land Management.

HOUSE JOINT RESOLUTION NO. 18

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA DIRECTING THE ASSIGNMENT TO AN APPROPRIATE INTERIM COMMITTEE OF A STUDY OF THE POSSIBILITY OF BROADCASTING THE DELIBERATIONS OF THE MONTANA LEGISLATURE.

WHEREAS, the citizens of Montana have a vested interest in the policy issues confronting their elected representatives; and

WHEREAS, broadcasting legislative deliberations in other states has proved to be an effective means of educating and informing the citizenry; and

WHEREAS, there are currently few sources from which Montana's citizens can obtain information about legislative deliberations, virtually none of which is an unfiltered source; and

WHEREAS, the opportunity exists for the Legislature to enhance its standing in the public's eye by providing direct observation of public policy deliberations; and

WHEREAS, the new millennium promises new and enhanced opportunities for providing broadcast coverage of the deliberations of the Montana Legislature; and

WHEREAS, as the citizens of Montana increasingly seek better, faster, clearer, and unfiltered information about public policy, the Legislature will have

HeinOnline -- 1999 vol. III 2936 1999

the need to understand the possibilities, obstacles, and other issues associated with providing that information, including the broadcasting of legislative deliberations.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the Legislative Council be requested to designate an appropriate legislative interim committee to study the general issue of broadcasting legislative deliberations. The study should include:

(1) examining the economic feasibility of broadcasting legislative deliberations, including identifying practical opportunities and approaches for financing;

(2) developing recommendations for designing the scope of the project, including programming, production, broadcasting, transmission, and distribution; and

(3) developing an outline for the management, administration, and governance of broadcasting legislative proceedings.

BE IT FURTHER RESOLVED, that the committee to which the study is assigned should look to approaches taken in the numerous other states that, in some form, broadcast legislative deliberations and should encourage the participation of private and public media representatives who have knowledgo of similar activities and who may have current or future interest in broadcasting the deliberations of the Montana Legislature.

BE IT FURTHER RESOLVED, that the committee report its findings, conclusions, and recomendations to the 57th Legislature and, as appropriate, recommend any necessary legislation and identify options for further legislative consideration.

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA URGING THE FULL FUNDING OF PAYMENTS IN LIEU OF TAXES ON FEDERAL LAND IN MONTANA, THE PROPER HARVEST OF THE ALLOWABLE SALE QUOTA FOR TIMBER, AND A RENEWAL OF THE FEDERAL GOVERNMENT'S COMPACT WITH STATE AND LOCAL GOVERNMENTS TO CONTRIBUTE A FAIR SHARE OF TAXES ON FEDERAL LAND IN MONTANA.

WHEREAS, the stability of Montana's economy has historically been dependent on use of our abundant natural resources; and

WHEREAS, the natural resource harvest has contributed billions of dollars to Montana's economy by providing employment opportunities to members of our communities and by supporting our business communities; and

WHEREAS, revenue from industries related to natural resource harvest has produced taxes for the support of local and state governments; and

WHEREAS, the federal government has long recognized the importance of supporting local governments in counties where the United States controls

management of public lands by reimbursing state and local governments by payments in lieu of taxes (PILT); and

WHEREAS, a variety of federal legislation, such as the Forest Reserve Act of 1890 sought to make equitable distribution to counties and to the education system of 25% of net proceeds derived by the sale of resources harvested on federal land; and

WHEREAS, the federal government is now reducing the volume of timber cut in relation to the allowable sale quotas (ASQ), redistributing funds historically contained in the 25% fund (outfitter fees), reducing its commitment to full funding of PILT, which was reduced from 100% in 1994 to 53% in 1998, and redefining its commitment to states and counties (a decoupling effort to overturn the 1890 Forest Reserve Act); and

WHEREAS, this effort has and will cause irreparable financial harm to state and local governments, our natural resource industries, and employment opportunities for Montanans.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the Legislature of the State of Montana petition the U.S. Congress to ensure a full commitment by the federal government to full funding of PILT, a commitment toward the proper harvest of the natural resource base by way of already adopted ASQ, and a renewal of its compact with states and local governments to contribute the federal government's fair share in taxes on land present in Montana but retained by the federal government.

BE IT FURTHER RESOLVED, that the Secretary of State send copies of this resolution to the President of the United States, the Secretary of State of the United States, the President of the United States Senate, the Speaker of the United States House of Representatives, the Western Governors' Association, and the Montana Congressional Delegation.

HOUSE JOINT RESOLUTION NO. 26

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA REQUESTING THAT THE CURRENT FEDERAL GOVERNMENT POLICIES ON NATIONAL FOREST ROAD CLOSURES AND OBLITERATION BE SUSPENDED AND THAT CONGRESS REAFFIRM ITS DIRECTIVES THAT FOREST LANDS BE MANAGED IN ACCORDANCE WITH FOREST PLANS THAT PROVIDE FOR MULTIPLE-USE MANAGEMENT.

WHEREAS, there are 737 million acres of forested land covering approximately one-third of the United States, a nation that has created the largest legally protected wilderness system in the world, while at the same time sustaining a highly productive and efficient wood products industry; and

WHEREAS, the federal government owns approximately two-thirds of the land in western Montana and these lands are primarily administered by the U.S. Forest Service; and

WHEREAS, the management of federal lands has a direct impact on economic and recreational opportunities and the quality of life for thousands of Montana residents; and

HeinOnline -- 1999 vol. III 2943 1999

WHEREAS, Congress has declared in the federal Multiple-Use Sustained-Yield Act of 1960 that national forests are established and must be utilized for outdoor recreation, range, timber, watershed, and wildlife and fishery purposes; and

WHEREAS, the national forest road system represents a significant capital infrastructure investment and a valuable existing forest asset for forest managers and the public, providing access for a multitude of recreational opportunities, for emergency response efforts, and for resource management, protection, and improvement activities; and

WHEREAS, the federal government continues to close roads to public access by motorized vehicles and, in early 1998, the forest service proposed and is now planning to implement an 18-month moratorium on all new road building in roadless areas pending a review of its road management policies; and

WHEREAS, one stated purpose of the moratorium is to close or obliterate existing roads, thus creating additional defacto roadless areas contrary to the interests of Montana's citizens; and

WHEREAS, the scheduled destruction of nearly 2,000 miles of roads in the 10 national forests in Montana can have significant environmental, economic, and cultural impacts upon the fabric of many Montana communities and its citizens; and

WHEREAS, 650 miles of forest system roads in the Flathead National Forest alone have been scheduled for obliteration and 200 miles have already been destroyed; and

WHEREAS, destruction or obliteration of existing forest system roads can cause short-term and long-term increased discharges of sediment to streams, adversely affecting certain sensitive or endangered fish species and resulting in further restrictions on other multiple-use activities.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

(1) That the 56th Montana Legislature opposes the current administration's policy on national forest road closure and obliteration and urges the immediate suspension of road closure and obliteration activities.

(2) That existing roads are a valuable and necessary capital investment in public lands that should not be lost or destroyed.

(3) That forest plans specifying multiple-use management for timber harvest, outdoor recreation, range, watershed, and fish and wildlife values should be given priority as the appropriate and necessary management guidance to the forest service.

WHEREAS, the Pick-Sloan Missouri Basin Program (P-SMBP) is a federal project initiated in 1944 to provide low-cost pumping power to irrigation developments; and

WHEREAS, the P-SMBP irrigation development in Montana has successfully contributed to Montana's economic well being; and

WHEREAS, the Bureau of Reclamation and the Western Area Power Administration, responding to external pressures, are poised to implement a significant increase in energy rates from 2.5 mills a kilowatt hour to 11 to 15 mills a kilowatt hour for Montana irrigation districts operating P-SMBP projects; and

WHEREAS, the Bureau of Reclamation and the Western Area Power Administration, responding to external pressures, are preparing to transfer wheeling responsibility on nonfederal transmission systems outside the P-SMBP, thus becoming the direct responsibility of the irrigators.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

WHEREAS, special education programs serving students with disabilities provide essential services to children and their families; and

WHEREAS, state and local educational agencies are mandated by federal law to provide a free appropriate public education for children with disabilities; and

HeinOnline -- 1999 vol. III 2945 1999

WHEREAS, costs associated with serving children with disabilities continue to rise, and meeting those substantial costs requires a strong partnership between local, state, and federal governments; and

WHEREAS, underfunding results in local school districts redirecting resources that could otherwise be used for all children; and

WHEREAS, the federal commitment to states and localities under the federal Individuals with Disabilities Education Act to contribute 40% of the excess costs of providing a free appropriate public education has never been fulfilled; and

WHEREAS, despite recent large increases in federal special education funding, the federal share is still less than one-half the original commitment to states and localities.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the Legislature of the State of Montana urges the United States Congress and President Bill Clinton to increase funding for special education so that the statutory goal of providing up to 40% of the national average per-pupil expenditure required to serve children and youth with disabilities be achieved within the next 3 years.

WHEREAS, the 21st century promises local governments new challenges, new requirements, reaffirmed and new expectations, and new opportunities; and

WHEREAS, Montana's local governments and local officials labor under state laws that are often anachronisms left behind from the 19th century; and

WHEREAS, the Legislature is the branch of government authorized and duty-bound to provide clear, modern, effective, and flexible guidelines, in the form of laws, to pilot local governments and local officials in carrying out the duties and responsibilities that citizens have come to expect; and

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the Legislative Council be requested to designate an appropriate legislative committee to:

(2) work with individuals who are knowledgeable about and experienced in the practical, legal, financial, intergovernmental, and related issues confronting local governments and local officials; and

(3) develop a comprehensive set of goals and objectives that should be contained in and reflected by the duties, responsibilities, and authority accorded to local governments and local officials in the 21st century.

HOUSE JOINT RESOLUTION NO. 31

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA URGING THE DEPARTMENT OF ADMINISTRATION TO DEVELOP A POLICY AND PROVIDE FOR TRAINING ON THE APPROPRIATE USE BY STATE AGENCIES OF PRERECORDED VOICE MENU ANSWERING SYSTEMS.

WHEREAS, state agencies are employed to do the public's business; and

WHEREAS, people seeking to contact agency personnel are increasingly frustrated by the use of prerecorded voice menu answering systems; and

WHEREAS, the inappropriate use of prerecorded voice menu systems results in many people having to wait while numerous and often complex menu options are presented; and

WHEREAS, in many cases, the menu presented either fails to offer an option to speak to a real person or the option to speak to a real person is offered only as the last choice on the menu; and

WHEREAS, there are appropriate uses of voice menu systems that avoid these negative consequences of using this technology; and

WHEREAS, a consistent and user-friendly policy for state agencies on the appropriate use of prerecorded voice menu answering systems that ensures that state agency personnel are instructed on how to use voice menu answering systems is desirable to better serve the public and improve customer service and public relations; and

WHEREAS, the Department of Administration has expressed a willingness to develop, in cooperation with the Information Technology Advisory Council, a coordinated and enforceable policy that would help agencies avoid the negative applications of voice menu systems; and

WHEREAS, government agencies should be responsive to the needs of the public and provide person-to-person customer service whenever possible.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the Department of Administration be encouraged to develop, in cooperation with the Information Technology Advisory Council, a consistent and enforceable policy on state agency use of prerecorded voice menu answering systems.

BE IT FURTHER RESOLVED, that the policy should clearly specify what is or is not an appropriate use of a prerecorded voice menu answering system, the maximum length of recorded messages, and that a caller be offered the ability to talk to a real person.

BE IT FURTHER RESOLVED, that the Secretary of State send a copy of this resolution to each department of state government.

HOUSE JOINT RESOLUTION NO. 33

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA REQUESTING THE LEGISLATIVE COUNCIL TO DESIGNATE AN APPROPRIATE INTERIM COMMITTEE TO STUDY SOURCES AND LEVELS OF FUNDING FOR THE CONSERVATION AND MANAGEMENT OF FISH AND WILDLIFE RESOURCES AND TO STUDY THE HISTORIC AND CURRENT RESPONSIBILITIES OF THE DEPARTMENT OF FISH, WILDLIFE, AND PARKS.

WHEREAS, for nearly a century, hunters and anglers have accepted significant financial responsibility for conservation and management of wildlife in Montana; and

WHEREAS, license fees and federal excise taxes on sporting equipment have funded programs that protect wildlife habitat, ensure sound management, and provide recreational access for hunting and fishing; and

WHEREAS, in years past, when fish and wildlife management consisted mainly of counting game populations, setting seasons, and enforcing bag limits, it was appropriate that hunters and anglers paid the bill; and

WHEREAS, fish and wildlife managers must do more today than provide for the needs of hunters and anglers; and

WHEREAS, federal decisions on the listing of threatened and endangered species can have major impacts on Montana's fish and wildlife, as well as on the state's economy, and the Montana Department of Fish, Wildlife, and Parks needs to gather information about and manage nongame wildlife, initiate and monitor habitat protection measures, negotiate with federal agencies, and litigate issues to protect the state's rights and interests; and

WHEREAS, subdivision of rural lands is increasing the frequency and severity of life-threatening and property-damaging conflicts between people and wildlife and the Department of Fish, Wildlife, and Parks needs to respond to calls for assistance in mitigating those conflicts; and

WHEREAS, while the number of hunters and anglers who buy licenses is relatively stable, wildlife management costs continue to increase and current projections suggest that the general license fund balance will decline through fiscal year 2004; and

WHEREAS, future Legislatures will have to wrestle with tough issues such as whether to close the fiscal gap by drastically cutting spending, raising license fees, or finding alternative sources to pay the costs of fish and wildlife conservation in Montana; and

WHEREAS, the Legislature finds that it is clearly in the best interests of all Montanans, especially hunters and anglers, that a diverse group of Montanans should explore various sources of funding for fish and wildlife management programs and determine whether hunters and anglers should continue to accept primary financial responsibility for fish and wildlife management programs that may not directly benefit the fish and wildlife populations typically pursued by hunters and anglers.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the Legislative Council be requested to designate an appropriate interim committee to:

HeinOnline -- 1999 vol. III 2949 1999

(1) examine the historic, current, and anticipated sources and levels of funding for the conservation and management of the state's fish and wildlife resources;

(2) examine the historic responsibilities of the Department of Fish, Wildlife, and Parks for fish and wildlife management and conservation;

(3) examine the changing demands placed on the Department of Fish, Wildlife, and Parks for management of nontraditional programs, such as those for threatened and endangered species; and

(4) consider options and alternative sources to more appropriately fund necessary programs if it is determined that hunting and fishing license revenue is paying for those programs to the benefit of all Montanans.

BE IT FURTHER RESOLVED, that the committee is encouraged to:

(1) solicit the participation of the Montana Department of Fish, Wildlife, and Parks;

(2) actively seek the involvement of Montana's hunters and anglers;

(3) appoint suhcommittees as necessary; and

(4) use the staff resources of the Legislative Branch and the various agencies of state government, as well as the expertise that may he available from within the Montana University System, hunter and angler groups, and elsewhere.

BE IT FURTHER RESOLVED, that the committee assigned to conduct the study shall:

(1) prepare, prior to September 15, 2000, a detailed report of its findings and conclusions on the issues assigned to it by this resolution; and

(2) submit the report to the Governor and the Legislature, as provided in 5-11-210.

BE IT FURTHER RESOLVED, that if the committee identifies and agrees to make recommendations for further legislative consideration, those recommendations must be included in the report.

WHEREAS, eminent domain rights were first granted in 1877 for the development of utilities that served the public interest; and

WHEREAS, use of the power of eminent domain is not well-understood; and

WHEREAS, many landowners believe that their property rights are not protected by Montana's statutes governing eminent domain; and

WHEREAS, there are different rights and responsibilities associated with an easement in gross and an appurtenant easement; and

WHEREAS, options for expanding or limiting rights under easements are not effectively used; and

HeinOnline -- 1999 vol. III 2950 1999

WHEREAS, the condemnation proceedings undertaken to exercise the power of eminent domain are intended to be a last resort for failed negotiations; and

WHEREAS, there were several proposals to the 56th Legislature to revise laws governing eminent domain.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the Legislative Council be requested to designate an appropriate interim committee to:

HeinOnline -- 1999 vol. III 2953 1999

Bardanouve who recalled that Holmes, "knew more about how much money we spent than we did"; and

WHEREAS, J.D. Holmes once discovered a significant error in the budget action of the Legislature, which resulted in a special session that year; and

WHEREAS, in 1991, the Legislature recognized the exemplary service of J.D. Holmes by summoning him to the well of the House of Representatives to accord him highest honors and a certificate attesting to his many contributions to the benefit of his fellow citizens—a presentation that packed the House chambers with members of the House and Senate and citizens from throughout the state; and

WHEREAS, the journalistic services of J.D. Holmes transcended the reporting of events and he achieved the status of having been the invaluable recorder of history who was called upon often in life to fill in otherwise forgotten detail and meaning by reference to his meticulous recordings of the significant roles and actions of state officials, now saved for posterity with his "little black book" archived in the State Historical Society, and his work remains a lode of information; and

HOUSE JOINT RESOLUTION NO. 37

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA REQUESTING THE LEGISLATIVE COUNCIL TO APPOINT AN APPROPRIATE INTERIM COMMITTEE TO STUDY WOMEN'S PRISON ISSUES.

HeinOnline -- 1999 vol. III 2954 1999

WHEREAS, since May of 1998, Montana women inmates have been placed in out-of-state contract beds in Gallup, New Mexico, and in regional correctional facilities because of extraordinary growth in the population of the women's correctional system; and

WHEREAS, transferring women inmates to out-of-state prisons and to regional correctional facilities for incarceration focuses primarily on the housing needs and insufficiently on the rehabilitation or treatment needs of women inmates; and

WHEREAS, out-of-state and regional placement of women inmates compromises maintaining contact with their families, job training, and educational opportunities needed for the women to successfully make the transition back into society; and

WHEREAS, the classification of the women inmates, the calculation of their term of incarceration, and the ability of the women to prepare for and attend timely parole hearings needs to be reviewed in light of the great distances placed between the women inmates and the administration of the Montana Women's Prison and the Board of Pardons and Parole; and

WHEREAS, studying the smaller population of women inmates presents an opportunity to study a sample of the correctional system as a whole and shed further light on the administration of justice within the correctional system.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That an appropriate interim committee be assigned to study women's prison issues, including but not limited to the following:

(1) reviewing the classification system and the extent to which it takes into consideration the unique characteristics of women inmates and whether nonviolent inmates are treated at the appropriate levels of incarceration;

(2) reviewing the length of stay, the calculation of parole eligibility and discharge dates, and the timeliness of parole hearings for women inmates at the Montana Women's Prison and in any out-of-state or regional contract placements;

(3) reviewing the lack of utilizing puhlic and private training and educational programs for women offenders, such as AmeriCorps and Job Training Partnership Act of 1982 (JTPA) programs;

(4) exploring any evidence of abuse of legal and illegal drugs and use of legal drugs within the Montana Women's Prison and any out-of-state or regional placements and the availability and quality of chemical dependency and mental health treatment programs and aftercare; and

(5) examiming the ability of the system to funnel women inmates into the least restrictive environment during their incarceration in order to be able to access training and education to enhance their future ability to obtain and maintain employment, to learn parenting skills, be reunited with their families, and become productive members of society, and to prevent recidivism.

HOUSE JOINT RESOLUTION NO. 38

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA REQUESTING THE LEGISLATIVE COUNCIL TO DESIGNATE AN APPROPRIATE INTERIM COMMITTEE TO STUDY, REPORT ITS FINDINGS, AND DEVELOP LEGISLATION ADDRESSING JUVENILE PROBATION OFFICER EMPLOYMENT AND SALARY ISSUES.

WHEREAS, the Montana Legislature, through the Montana Youth Court Act, has prioritized balanced and restorative justice for Montana youth; and

WHEREAS, juvenile probation officers are the primary front-line workers in the Montana youth justice system, and their jobs are challenging, important, and very demanding; and

WHEREAS, Montana juvenile probation officer salaries are set by District Court Judges, but the salaries are paid by counties through the county budget process, subject to County Commissioner approval; and

WHEREAS, the duality in the salary structure along with differences in each county's tax base has created wide discrepancies in pay rates for chief and deputy juvenile probation officers; and

WHEREAS, the state, through the Legislature, set a static statutory maximum and minimum on juvenile probation officer salaries, which created distortions in the distribution of juvenile probation officer pay across the salary range; and

WHEREAS, juvenile probation officers work at the pleasure of the court, which suggests the appropriateness of state participation in funding their salaries; and

WHEREAS, the community-based nature of youth justice programs improves the effectiveness of the programs and suggests merit in preserving the county and judicial district character of juvenile probation officer employment and salary decisionmaking.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the Legislative Council be requested to designate an appropriate interim legislative committee to:

(1) examine the funding and employment mechanisms currently in place for Montana juvenile probation officers;

Legislation

H40-10. Introduction deadlines. (1) Except as provided in subsection (2), if a representative accepts drafted legislation from the Legislative Services Division after the deadline for introduction, the representative may not introduce that legislation after 48 hours from the time the bill was accepted from the Legislative Services Division.

(2) No bill or resolution may be introduced any later than 5 p.m. 5 legislative days prior to the appropriate transmittal deadline.

H40-20. House resolutions. (1) A House resolution is used to adopt or amend House rules, make recommendations on the districting and apportionment plan (Montana Constitution, Art. V, Sec. 14), express the sentiment of the House, or assist House operations.

(2) As to drafting, introduction, and referral, a House resolution is treated as a bill. A House resolution may be requested and introduced at any time. Final passage of a House resolution is determined by the Committee of the Whole report. A House resolution does not progress to third reading.

(3) The Chief Clerk shall transmit a copy of each passed House resolution to the Senate and the Secretary of State.

H40-30. Cosponsors. (1) Prior to submitting legislation to the Chief Clerk for introduction, the chief sponsor may add representatives and senators as cosponsors by having them sign the copies.

(2) After legislation is submitted for introduction but before the legislation returns from the first House committee, the chief sponsor may add or remove cosponsors by filing a cosponsor form with the Chief Clerk. This filing must be noted by the Chief Clerk for the record on Order of Business No. 11.

H40-40. Introduction — receipt. (1) During a session, proposed House legislation may be introduced in the House by submitting it in duplicate, endorsed with the signature of a representative as chief sponsor, to the Chief Clerk for introduction. In each session of the Legislature, the proposed legislation must be numbered consecutively by type in the order of receipt. Submission and numbering of properly endorsed legislation constitutes introduction.

(2) Preintroduction of legislation prior to a session under provisions of the joint rules constitutes introduction in the House.

(3) Acknowledgment by the Chief Clerk of receipt of legislation or other matters transmitted from the Senate for consideration by the House constitutes introduction of the Senate legislation in the House or receipt by the House for purposes of applying time limits contained in the House rules. All legislation may be referred to a committee prior to being read across the rostrum as provided in H40-50.

(4) Acknowledgment by the Chief Clerk of receipt of messages from the Senate or other elected officials constitutes receipt by the House for purposes of

HeinOnline -- 1999 vol. III 2966 1999

any applicable time limit. Senate legislation or messages received from tbe Senate or elected officials are subject to all other rules.

H40-50. First reading. Legislation properly introduced or received in the House must be announced across the rostrum and public notice provided. This announcement constitutes first reading, and no debate or motion is in order except that a representative may question adherence to rules. Acknowledgment by tbe Chief Clerk of receipt of legislation transmitted from the Senate commences the time limit for consideration of tbe legislation. All legislation received by the House may be referred to a committee prior to being read across the rostrum.

H40-60. One reading per day. Except on the final legislative day, legislation may receive no more than one reading per legislative day. On the final legislative day, legislation may receive more tban one reading.

H40-70. Referral. (1) The Speaker shall refer to a House committee all properly introduced House legislation and transmitted Senate legislation.

(2) Legislation may not receive final passage and approval unless it has been referred to a House committee.

H40-80. Rereferral. (1) Except as provided in subsection (2), legislation tbat is in the possession of the House and that has not been finally disposed of may be rereferred to a House committee by House motion approved by not less than three-fifths of the members present and voting.

(2) Legislation that is in the possession of the House and tbat has been reported from a committee with a do pass or be concurred in recommendation may be rereferred to a House committee by a majority vote.

H40-90. Legislation withdrawn from committee. Legislation may be withdrawn from a House committee by House motion approved hy not less than three-fifths of the members present and voting.

H40-100. Standing committee reports. (1) A House standing committee recommendation of "do pass" or "be concurred in" must be announced across the rostrum and, if there is no objection to form, is considered adopted.

(2) A recommendation of "do not pass" or "be not concurred in" must be announced across the rostrum and, on the following legislative day, may be debated and adopted or rejected on Order of Business No. 2. A motion to reject an adverse committee report must be approved by not less than three-fifths of the members voting. Failure to adopt a motion to reject an adverse committee report constitutes adoption of the report.

(3) If the House rejects an adverse committee report, the bill progresses to second reading, as scheduled by the Speaker, with any amendments recommended by the committee.

H40-110. Consent calendar procedure. (1) Noncontroversial bills and simple and joint resolutions may be recommended for the consent calendar hy a standing committee and processed according to the following provisions:

(a) To be eligible for the consent calendar, the legislation must receive a unanimous vote by the members of the standing committee in attendance (do pass, do pass as amended). In addition, a motion must be made and passed unanimously to place the legislation on the consent calendar and this action

HeinOnline -- 1999 vol. III 2967 1999

reflected in the committee report. Appropriation or revenue bills may not be recommended for the consent calendar.

(b) The legislation must then be sent to be processed and reproduced as a third reading version and specifically marked as a "consent calendar" item.

(2) Other legislation may be placed on the consent calendar by agreement between the Speaker and the minority leader following a positive recommendation by a standing committee. The legislation must be sent to be processed as a second reading version but must be specifically announced and posted as a "consent calendar" item.

(3) Legislation must be posted immediately (as soon as it is received appropriately printed) on the consent calendar and must remain there for 1 legislative day before consideration under Order of Business No. 11, special orders of the day. At that time, the presiding officer shall announce consideration of the consent calendar and allow "reasonable time" for questions and answers upon request. No debate is allowed.

(4) If any one representative submits a written objection to the placement of legislation on the consent calendar, the legislation must be removed from the consent calendar and added to the regular second reading board.

(5) Consent calendar legislation will be considered on Order of Business No. 8, third reading of bills, following the regular third reading agenda, as separately noted on the agenda.

(6) Legislation on the consent calendar must be considered individually with the roll call vote spread on the journal as the final vote in the House.

(7) Legislation passed on the consent calendar must then be transmitted to the Senate. Legislation must be appropriately printed prior to transmittal.

H40-120. Legislation requiring other than a majority vote. Legislation that requires other than a majority vote for final passage needs only a majority vote for any action that is taken prior to third reading and that normally requires a majority vote.

H40-130. Amending House second and third reading agendas. (1) A majority of representatives present may rearrange or remove legislation from either the second or third reading agenda on that legislative day.

(2) Legislation may be added to the second or third reading agenda on that legislative day on a motion approved by not less than three-fifths of the members present and voting.

H40-140. Second reading. (1) Legislation returned from committee may be placed on second reading unless otherwise ordered by the House.

(2) The House shall form itself into a Committee of the Whole to consider business on second reading. The Committee of the Whole may debate legislation, attach amendments, and recommend approval or disapproval of legislation.

(3) Except on the final legislative day, at least 1 legislative day must elapse between the time legislation is reported from committee and the time it is considered on second reading.

(4) If a motion to recommend that a bill "do pass" or "be concurred in" fails in the Committee of the Whole, the obverse, i.e., a recommendation that the bill "do not pass" or "be not concurred in", is considered to have passed. If a motion

HeinOnline -- 1999 vol. III 2968 1999

to recommend that a bill "do not pass" or "be not concurred in" fails in the Committee of the Whole, the obverse, i.e., a recommendation that the bill "do pass" or "be concurred in", is considered to have passed.

(5) An amendment attached to legislation by the Committee of the Whole remains unless removed by further legislative action.

(6) When the Committee of the Whole reports to the House, the House shall adopt or reject the Committee of the Whole report. If the House rejects the Committee of the Whole report, the legislation remains on second reading, as amended by the Committee of the Whole, unless the House orders otherwise.

(7) A representative may move to segregate legislation from the Committee of the Whole report before the report is adopted. Segregated legislation, as amended by the Committee of the Whole, must be placed on second reading unless the House orders otherwise.

H40-150. Amendments in the Committee of the Whole. (1) All Committee of the Whole amendments must be checked by the House amendments coordinator for format, style, clarity, consistency, and other factors, in accordance with the most recent Bill Drafting Manual published by the Legislative Services Division, before the amendment may be accepted at the rostrum. The amendment form must include the date and time the amendment is submitted for that check.

(2) An amendment submitted to the rostrum for consideration by the Committee of the Whole must be marked as checked by the amendments coordinator and signed by a representative. Unless the majority leader, the minority leader, and sponsor agree, amendments must be printed and placed on the members' desks prior to consideration.

(3) An amendment may not be proposed until the sponsor has opened on a bill.

(4) A copy of every amendment rejected by the Committee of the Whole must be kept as part of the official records.

(5) An amendment may not change the original purpose of the bill.

H40-160. Motions in the Committee of the Whole. (1) When the House resolves itself into a Committee of the Whole, the only motions in order are to:

(a) amend;

(b) recommend passage or nonpassage;

(c) recommend concurrence or nonconcurrence;

(d) reconsider;

(e) pass consideration;

(f) call for cloture;

(g) rise, rise and report, or rise and report progress and beg leave to sit again; and

(h) to change the order in which legislation is placed on the agenda.

(2) Subsections (1)(d) through (1)(g) are nondebatable but may be amended. Once a motion under subsection (1)(b) or (1)(c) is made, a contrary motion is not in order.

HeinOnline -- 1999 vol. III 2969 1999

(3) If a quorum of representatives is not present during second reading, the Committee of the Whole may conduct no business on legislation and a motion for a call of the House without a quorum is in order.

H40-170. Limits on debate in the Committee of the Whole. (1) A representative may not speak more than once on the motion and may speak for no more than 5 minutes. The representative who makes the motion may speak a second time for 5 minutes in order to close.

(2) After at least two proponents and two opponents have spoken on a question and 30 minutes have elapsed, a motion to call for cloture is in order. Approval by not less than two-thirds of the members present and voting is required to sustain a motion for cloture. Notwithstanding the passage of a motion to end debate, the sponsor of the motion on which debate was ended may close.

(3) By previous agreement of the majority leader and the minority floor leader:

(a) a lead proponent and a lead opponent may be granted additional time to speak on a bill;

(b) a bill or resolution may be allocated a predetermined amount of time for debate and number of speakers.

H40-180. Special provisions for debate on the general appropriations bill. (1) The Appropriations Committee chairman, in presenting the bill, is not subject to the 5-minute speaking limitation.

(2) Each appropriations subcommittee chairman shall fully present their portion of the bill. A subcommittee chairman is not subject to the 5-minute speaking limitation.

(3) After the presentation by the subcommittee chairman, the respective section of the bill is open for debate, questions, and amendments.

(4) An amendment that affects more than one section of the bill must be offered when the first section affected is considered.

(5) Following completion of the debate on each section, that section is closed and may not be reopened except by majority vote.

(6) If a member moves to reopen a section for amendment, only the amendment of that member may be entertained. Another member wishing to amend the same section shall make a separate motion to reopen the section.

(7) Debate on the motion to reopen a section is limited to the question of reopening the section. The amendment itself may not be debated at that time. This limitation does not prohibit the member from explaining the amendment to be considered.

(8) A motion for cloture is not in order during debate on the general appropriations bill.

H40-190. Engrossing. (1) After legislation is passed on second reading, it must be engrossed within 48 hours under the direction of the Speaker. The Speaker may grant additional time for engrossing.

(2) When the legislation that has passed second reading has been correctly engrossed, it may be placed on third reading on the following legislative day. On the final legislative day, the correctly engrossed legislation may be placed on third reading on the same legislative day.

HeinOnline -- 1999 vol. III 2970 1999

H40-200. Third reading. (1) All bills, joint resolutions, and Senate amendments to House bills and resolutions passing second reading must be placed on third reading the day following the receipt of the engrossing or other appropriate printing report.

(2) Legislation on third reading may not be amended or debated.

(3) The Speaker shall state the question on legislation on third reading. If a majority of the representatives voting does not approve the legislation, it fails to pass third reading.

H40-210. Senate legislation in the House. Senate legislation properly transmitted to the House must be treated as House legislation.

H40-220. Senate amendments to House legislation. (1) When the Senate has properly returned House legislation with Senate amendments, the House shall announce the amendments on Order of Business No. 4, and the Speaker shall place them on second reading for debate. The Speaker may rerefer House legislation with Senate amendments to a committee for a hearing if the Senate amendments constitute a significant change in the House legislation. The second reading vote is limited to consideration of the Senate amendments.

(2) If the House accepts Senate amendments, the House shall place the final form of the legislation on third reading to determine if the legislation, as amended, is passed or if the required vote is obtained.

(3) If the House rejects the Senate amendments, the House may request the Senate to recede from its amendments or may direct appointment of a conference committee and request the Senate to appoint a like committee.

H40-230. Conference committee reports. (1) When a House conference committee files a report, the report must be announced under Order of Business No. 3.

(2) The House may debate and adopt or reject the conference committee report on second reading on any legislative day. The House may reconsider its action in rejecting a conference committee report under rules for reconsideration, H50-160.

(3) If both the House and the Senate adopt the same conference committee report on legislation requiring more than a majority vote for final passage, the House, following approval of the conference committee report on third reading, shall place the final form of the legislation on third reading to determine if the required vote is obtained.

(4) If the House rejects a conference committee report, the committee continues to exist unless dissolved by the Speaker or by motion. The committee may file a subsequent report.

(5) A House conference committee may confer regarding matters assigned to it with any Senate conference committee with like jurisdiction and submit recommendations for consideration of the House.

(2) The chief sponsor of the legislation shall examine the enrolled legislation and, if it has no enrolling errors, shall, within 1 legislative day, certify the legislation as correctly enrolled.

HeinOnline -- 1999 vol. III 2971 1999

(3) The correctly enrolled legislation must be delivered to the Speaker, who shall sign the legislation.

(4) After the legislation has been reported correctly enrolled but before it is signed, any representative may examine the legislation.

H40-250. Governor's amendments. (1) When the Governor returns a bill with recommended amendments, the House shall announce the amendments under Order of Business No. 5.

(2) The House may debate and adopt or reject the Governor's recommended amendments on second reading on any legislative day.

(3) If both the House and the Senate accept the Governor's recommended amendments on a bill that requires more than a majority vote for final passage, the House shall place the final form of the legislation on third reading to determine if the required vote is obtained.

H40-260. Governor's veto. (1) When the Governor returns a bill with a veto, the House shall announce the veto under Order of Business No. 5.

(3) A motion to table is not in order after the previous question has been ordered.

H60-60. Motion to postpone. A motion to postpone to a day certain may be amended and is debatable within narrow limits. The merits of the proposition that is the subject of the motion to postpone may not be debated.

H60-70. Motion to refer. When a motion is made to refer a subject to a standing committee or select committee, the question on the referral to a standing committee must be put first.

H60-80. Terms of debate on motion to refer or rerefer. (1) A motion to refer or rerefer is debatable within narrow limits. The merits of the proposition that is the subject of the motion may not be debated.

(2) A motion to refer or rerefer with instructions is fully debatable.

H60-100. Moving the previous question after a motion to table. (1) If a motion to table is made directly to a main motion, a motion for the previous question is not in order.

H60-110. Standard motions. The following are standard motions:

HOUSE RESOLUTION NO. 2

A RESOLUTION OF THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA REQUESTING THAT THE FEDERAL GOVERNMENT REPEAL RESTRICTIONS ON THE PRODUCTION OF INDUSTRIAL HEMP AS AN AGRICULTURAL AND INDUSTRIAL PRODUCT.

WHEREAS, agriculture is the largest source of income for Montanans; and

WHEREAS, a devastating drop in prices for agricultural products is threatening the survival of Montana farm families; and

WHEREAS, it is a current major economic goal to diversify the agriculture of Montana; and

WHEREAS, although industrial hemp is often mistakenly associated with marijuana, it is a different plant, with little or no tetrahydrocannabinol or narcotic properties, so Montana farmers should not be prohibited from expanding agricultural practices to the growing of industrial hemp; and

WHEREAS, in over 30 countries, including Canada, England, France, Germany, Japan, and Australia, existing international treaties provide for the agricultural production and sale of industrial hemp as a valuable agricultural product; and

WHEREAS, industrial hemp has been used in the manufacture of paper, paints, clothing, plastics, cosmetics, food, fuel, and animal feed and can grow to maturity in 100 days without the necessity of pesticides; and

WHEREAS, current United States federal policy prevents the American agricultural production of industrial hemp while foreign hemp is being imported, at a loss of millions of dollars to American farm families; and

WHEREAS, current federal policy is inconsistent with international agricultural policy and places an unnecessary financial restriction on the Montana agricultural community.

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That tbe House of Representative of the State of Montana urge the federal government to repeal restrictions on the production of industrial hemp as an agricultural and industrial product.

BE IT FURTHER RESOLVED, that the Secretary of State send a copy of this resolution to all appropriate federal agencies that have authority over the current policy prohibiting the production of industrial hemp.

BALLOT ISSUES

HeinOnline -- 1999 vol. III 2981 1999

HeinOnline -- 1999 vol. III 2982 1999

INITIATIVE REFERENDUM NO. 114

In 1996, Montana voters passed Initiative 125, prohibiting—except from certain non-profit corporations with no for-profit corporate members—direct corporate spending toward the support or defeat of ballot issues, and setting voluntary spending limits for ballot issue committees. The 1997 legislature passed House Bill 575, amending I-125 to prohibit all contributions to ballot issue campaigns by corporations, partnerships, associations, and tax-exempt organizations, except from a separate political fund created through voluntary contributions from shareholders, employees, or members. It amends the definition of "expenditures" by political committees, for purposes of voluntary spending limits, to remove reference to loans received by committees.

Initiative No. 114 was approved by the following vote at the General Election held November 3, 1998:

For:	161,476
Against:	144,425

The text of the Initiative follows:

Be it enacted by the People of the State of Montana:

Section 1. Section 13-35-227, MCA, is amended to read:

"13-35-227. Prohibited contributions from corporations *for candidates or political parties.* (1) (a) ~~Except as provided in subsection (4), a~~ *A* corporation may not make a contribution or an expenditure in connection with a candidate~~, a ballot issue,~~ or a political committee ~~which~~ *that* supports or opposes a candidate~~, a ballot issue,~~ or a political party.

(b) For purposes of this section, "corporation" refers to for-profit and nonprofit corporations.

(2) A person, candidate, or political committee may not accept or receive a corporate contribution described in subsection (1).

(3) This section does not prohibit the establishment or administration of a separate, segregated fund to be used for making political contributions or expenditures if the fund consists only of voluntary contributions solicited from ~~an individual who is a shareholder, an employee, or a member~~ *individuals who are shareholders, employees, or members* of the corporation.

~~(4) The provisions of subsection (1) prohibiting corporate contributions to or expenditures in connection with a ballot issue do not apply to a nonprofit corporation formed for the purpose, among others, of promoting political ideas and that:~~

~~(a) does not engage in business activities;~~

~~(b) has no shareholders or other affiliated persons who have a private claim on the corporation's assets or earnings;~~

~~(c) does not accept foreign or domestic for profit corporations as members; and~~

~~(d) does not accept in the aggregate more than 5% annually of its total revenue from foreign or domestic for profit corporations.~~

~~(5)~~*(4)* A person who violates this section is subject to the civil penalty provisions of 13-37-128."

HeinOnline -- 1999 vol. III 2983 1999

Section 2. Prohibited contributions for ballot issues. (1) A business corporation, nonprofit corporation, religious corporation, professional corporation, business trust, limited liability company, close corporation, partnership, limited partnership, mining partnership, cooperative association, agricultural association, cooperative agricultural marketing association, rural cooperative, utility association, or other association or organization exempt from taxation under 15-31-102 or 26 U.S.C. 501(c) may not make a contribution or an expenditure in connection with a ballot issue or to a political committee that supports or opposes a ballot issue.

(2) A person or political committee may not accept or receive a contribution described in subsection (1).

(3) This section does not prohibit the establishment or administration of a separate, segregated fund to be used for making political contributions or expenditures if the fund consists only of voluntary contributions solicited from individuals who are shareholders, employees, or members of an organization described in subsection (1).

(4) A person who violates this section is subject to the civil penalty provided in 13-37-128.

Section 3. Section 13-37-250, MCA, is amended to read:

"**13-37-250. Voluntary spending limits.** (1) (a) ~~Beginning January 1, 1997, the~~ *The* following statement may be used in printed matter and in broadcast advertisements and may appear in the voter information pamphlet prepared by the secretary of state: "According to the Office of the Commissioner of Political Practices, ... is in compliance with the voluntary expenditure limits established under Montana law."

(b) The treasurer of each political committee, as defined in 13-1-101(12)(b), who files a certification on a ballot issue pursuant to 13-37-201 may also file with the commissioner a sworn statement that the committee will not exceed the voluntary expenditure limits of this section. If a sworn statement is made, it must be filed with the commissioner within 30 days of the certification of the political committee.

(c) A political committee that has not filed a sworn statement with the commissioner may not distribute any printed matter or pay for any broadcast claiming to be in compliance with the voluntary expenditure limits of this section.

(d) A political committee may not use evidence of compliance with the voluntary expenditure limits of this section to imply to the public that the committee has received endorsement or approval by the state of Montana.

(2) For the purposes of this section, the expenditures made by a political committee consist of the aggregate total of the following during the calendar year:

(a) ~~all loans made or received by the committee;~~

~~(b)~~ all committee *loans or* expenditures made by check or cash; and

~~(c)~~*(b)* the dollar value of all in-kind contributions made or received by the committee.

(3) In order to be identified as a political committee in compliance with the voluntary expenditure limits of this section, the committee's expenditures, as described in subsection (2), may not exceed $150,000.

HeinOnline -- 1999 vol. III 2984 1999

(4) ~~Beginning January 1, 1997, any~~ *A* political committee that files with the commissioner a sworn statement to abide by the voluntary expenditure limits of this section but that exceeds those limits shall pay a fine of $5,000 to the commissioner. This money must be deposited in a separate fund to be used to support the enforcement programs of the office of the commissioner."

Section 4. Codification instruction. [Section 2] is intended to be codified as an integral part of Title 13, chapter 35, part 2, and the provisions of Title 13, chapter 35, part 2, apply to [section 2].

Section 5. Effective date. [This act] is effective on passage and approval.

INITIATIVE REFERENDUM NO. 134

This initiative would repeal the Montana Retail Motor Fuel Marketing Act. The Act was passed in 1991 to prevent fuel dealers from selling fuel below cost to drive out competition from smaller independent dealers and distributors. It prohibits selling fuel for less than the price the seller paid, plus overhead and labor costs, if the effect of the below-cost pricing is to destroy or injure competitors or competition. A gas station cannot sell fuel for less than the wholesale price it pays plus a 6% markup, unless its cost of doing business is actually less than the 6% markup.

Initiative No. 134 was approved by the following vote at the General Election held November 3, 1998:

For:	172,081
Against:	146,629

The text of the Initiative follows:

Be it enacted by the People of the State of Montana:

Section 1. Repealer. Sections 30-14-801, 30-14-802, 30-14-803, 30-14-804, 30-14-805, and 30-14-806, MCA, are repealed.

Section 2. Effective date. If approved by the electorate, this act is effective January 1, 1999.

INITIATIVE REFERENDUM NO. 137

Cyanide leach mineral processing is the procedure used in mining operations that applies a cyanide-based solution over gold or silver ore to remove the precious metals from the waste rock, so the metals can be recovered. This measure would prohibit new open-pit gold and silver mines in Montana that use heap and vat cyanide leach processing. Any open-pit mines currently operating and permitted to use cyanide leach processing could continue to do so, but this measure would prohibit any expansion of these mines. If approved, this measure would be effective immediately.

Initiative No. 137 was approved by the following vote at the General Election held November 3, 1998:

For:	169,991
Against:	155,034

The text of the Initiative follows:

HeinOnline -- 1999 vol. III 2985 1999

Be it enacted by the People of the State of Montana:

Section 1. Cyanide Heap and Vat Leach Open Pit Gold and Silver Mining Prohibited. (1) Open pit mining for gold or silver using heap leaching or vat leaching with cyanide ore-processing reagents is prohibited.

(2) A mine described in section 1 is operating on November 3, 1998 may continue operating under its existing operating permit, but the permit may not be amended to allow its operations to be expanded.

Section 2. Codification instruction. Section 1 is intended to be codified in Title 82, chapter 4, part 3.

Section 3. Effective date. This act is effective upon approval by the electorate.

CHAPTER NO. 1

[HB 1]

AN ACT IMPLEMENTING THE CROW-MONTANA RESERVED WATER RIGHTS COMPACT; PROVIDING FOR THE PAYMENT OF SETTLEMENT FUNDS INTO AN ESCROW FUND; ESTABLISHING CONDITIONS TO BE CONTAINED IN AN ESCROW AGREEMENT UNDER WHICH THE FUNDS MAY BE HELD AND BE PAID TO THE CROW TRIBE IN SATISFACTION OF THE STATE'S OBLIGATIONS UNDER THE COMPACT AND IN CONSIDERATION OF THE TRIBE'S AGREEMENT TO RELEASE CERTAIN CLAIMS AGAINST THE STATE; AUTHORIZING THE GOVERNOR AND ATTORNEY GENERAL TO ENTER INTO AN AGREEMENT WITH THE CROW TRIBE AND THE UNITED STATES TO SETTLE CERTAIN CLAIMS AND UNDER WHICH THE STATE MAY MAKE CERTAIN PAYMENTS AND PAY TO THE CROW TRIBE THE FUTURE PROCEEDS OF ANY PRODUCTION TAXES LEVIED UNDER STATE LAW ON THE PRODUCTION OF COAL OWNED BY THE UNITED STATES IN TRUST FOR THE CROW TRIBE; APPROPRIATING FUNDS TO THE DEPARTMENT OF NATURAL RESOURCES AND CONSERVATION; AND PROVIDING AN EFFECTIVE DATE.

Be it enacted by the Legislature of the State of Montana:

Section 1. Findings and purpose. (1) It is the policy of the state of Montana to seek negotiated settlements of federal and Indian reserved water rights claims in Montana under Title 85, chapter 2, part 7.

(2) Pursuant to this policy, the commission commenced negotiations with the Crow Tribe regarding the Tribe's water rights claims on November 12, 1981.

(3) A water rights compact has been agreed to between the commission and the elected representatives of the government of the Crow Tribe that, among other things, provides an allocation of water to the Crow Tribe and provides protection for certain water rights recognized under state law in Montana.

(4) As consideration for the Crow Tribe's agreement to protect certain water rights recognized under state law in Montana and to release certain legal claims asserted against the state, the state of Montana has undertaken an obligation to make certain payments for the benefit of the Crow Tribe and has agreed that any future production taxes collected by the state on production of coal owned by the United States in trust for the Crow Tribe will be paid to the Crow Tribe.

(5) The commission's agreement to the compact and the state's obligation to make payments to the Crow Tribe thereunder is conditioned, among other things, upon the final approval of the compact as set forth in the compact and as required by state, federal, and tribal law and upon the execution and delivery by the Crow Tribe of sufficient releases for the legal claims that the Crow Tribe has agreed to release.

(6) The purposes of [sections 1 through 4] are to provide for the implementation of the compact, to provide a mechanism for settlement of certain claims against the state, and to provide a means to fund the state's financial obligations for the upcoming biennium under its water rights compact with the Crow Tribe.

Section 2. Definitions. As used in [sections 1 through 4], the following definitions apply:

(1) "Commission" means the reserved water rights compact commission.

(2) "Compact" means the Crow-Montana water rights compact as approved by the legislature in [LC 1].

(3) "Department" means the department of natural resources and conservation.

Section 3. Payment of settlement funds into escrow — requirements for escrow agreement — notice from attorney general. (1) The department shall enter into an agreement with the Crow Tribe and, if necessary under federal or tribal law, the United States, selecting an escrow agent to hold any funds paid by the state prior to the time they become payable to the Crow Tribe under this section. When an escrow agent has been selected, the department shall negotiate the terms of an escrow agreement with the Crow Tribe, the escrow agent, and if necessary under federal or tribal law, the United States. The terms of the agreement must govern the holding of the funds paid pursuant to the settlement. The escrow agreement must provide that any costs and fees payable for the management of the escrow fund will be borne by the fund, that the funds placed in the escrow account will be invested and held at interest in trust for the Crow Tribe, and that the contents of the fund will become payable to the order of the Crow Tribe only upon the occurrence of all of the following conditions:

(a) the compact has been approved by the Congress of the United States in a form satisfactory to the commission;

(b) the compact has been approved by the Crow Tribe in the manner provided by federal and tribal law, including approval of any tribal referendum presently or later required by federal or tribal law;

(c) the compact has been approved by the Montana water court for inclusion in the final decrees in all affected basins, and the order of approval has been affirmed on appeal or the time for appeal from the water court's approval has expired; and

(d) the Crow Tribe and the United States have furnished releases, pleadings, and proposed orders, in forms acceptable to the attorney general, with respect to all claims, including but not limited to claims for costs and attorney fees, asserted in the civil action captioned Crow Tribe of Indians v. State of Montana et al., Cause No. CV-78-110-BLG-JDS (D. Mont.), or any appeal pending in that action.

(2) Within 20 days after all conditions set forth in subsections (1)(a) through (1)(d) have been satisfied, the attorney general shall provide written notice of the satisfaction of the conditions to the escrow agent. The escrow agreement must provide that upon receipt of the written notice provided in this section, the escrow agent shall pay the funds in escrow to the order of the Crow Tribe. This section does not preclude the Crow Tribe from entering into an agreement with the escrow agent or any other entity for the holding of the funds in trust for the Crow Tribe for a period in excess of that provided in this section.

(3) The escrow agreement must provide that in the event the conditions set forth in subsection (1) do not occur within any time limits set in the compact, as those limits may be extended pursuant to the compact by agreement of the parties and the approval of the legislature, or if any party to the compact terminates the compact as provided in the compact prior to payment of the funds to the Crow Tribe as provided in subsection (2), the contents of the escrow fund, including

HeinOnline -- 1999 vol. III 3252 1999

funds paid into the escrow fund by the state and any interest earned on the escrow fund, will revert to the state.

Section 4. Settlement of litigation — disposition of production taxes collected on coal owned in trust for Crow Tribe. (1) The governor and attorney general may enter into an agreement with the Crow Tribe and the United States for the settlement of the civil action captioned Crow Tribe of Indians v. State of Montana et al., Cause No. CV-78-110-BLG-JDS (D. Mont.), or any appeal pending in that action.

(2) The agreement may:

(a) include a release of all claims asserted by the Crow Tribe and the United States in the action, including but not limited to claims for costs and attorney fees;

(b) provide payments as authorized in the compact and [sections 1 through 4]; and

(c) include an agreement by which the proceeds of any production taxes levied under Montana law on the severance or production of coal owned by the United States in trust for the Crow Tribe are to be paid to the Crow Tribe.

Section 5. Appropriation of settlement funds — timing of payments. (1) There is appropriated to the department of natural resources and conservation from the general fund $1.5 million in fiscal year 2000 and $1.5 million in fiscal year 2001, together with any interest earned on the amounts appropriated between July 1, 1999, and the date the funds are paid into escrow as provided in subsection (2) at the rate of interest earned on the permanent coal severance tax trust fund, for the purpose of funding the first 2 years' payments under the compact and the completion of the settlement provided for in [section 4].

(2) On July 1, 1999, or as soon after that date as the escrow agreement provided for in [section 3] is reached, the department of natural resources and conservation shall pay the funds appropriated for fiscal year 2000, together with any interest on the appropriated funds, into the escrow account established pursuant to [section 3]. On July 1, 2000, or as soon after that date as the escrow agreement provided for in [section 3] is reached, the department of natural resources and conservation shall pay the funds appropriated for fiscal year 2001, together with any interest on the appropriated funds, into the escrow account established pursuant to [section 3].

Section 6. Coordination instruction. If [LC 1] is not passed and approved, then [this act] is void.

Section 7. Nonseverability. It is the intent of the legislature that each part of [this act] is essentially dependent upon every other part, and if one part is held unconstitutional or invalid, all other parts are invalid.

Section 8. Codification instruction. [Sections 1 through 4] are intended to be codified as an integral part of Title 85, chapter 20, and the provisions of Title 85, chapter 20, apply to [sections 1 through 4].

Section 9. Effective date. [This act] is effective upon the later of:

(1) passage and approval of [this act]; or

(2) passage and approval of [LC 1].

Approved June 22, 1999

The Parties understand and agree that the submission of this Compact to a state court or courts, as provided for in this Compact, is solely to comply with the provisions of 85-2-702(3), MCA, and does not expand the jurisdiction of the state court or expand in any manner the waiver of sovereign immunity of the United States in the McCarran Amendment, 43 U.S.C. §666, or other provision of federal law.

3. Consistent with 3-7-224, MCA, setting forth the jurisdiction of the chief water judge, for the purposes of 85-2-702(3), MCA, the review by the Montana Water Court shall be limited to Article III, and Appendix 1, and may extend to other sections of the Compact only to the extent that they relate to the determination of existing water rights. The final decree shall consist of Article III as displayed in Appendix 1, and such other information as may be required by 85-2-234, MCA. Nevertheless, pursuant to 85-2-702(3), MCA, the terms of the entire Compact must be included in the preliminary decree without alteration for the purpose of notice.

4. Upon the issuance of a final decree by the Montana Water Court, or its successor, and the completion of any direct appeals therefrom, or upon the expiration of the time for filing any such appeal, the United States, the Tribe, and the State shall execute and file joint motions pursuant to Rule 41(a), Fed. R. Civ. P., to dismiss the Tribe's claims, and any claims made by the United States as trustee for the Tribe, in U.S. v. Big Horn Low Line Canal Company, et al., No. CIV-75-34-BLG (filed April 17, 1975) (hereinafter referred to as "Low Line Canal") and such claims may only be refiled if the Tribe exercises its option to withdraw as a Party to the Compact pursuant to Section A.3., of Article VII. This Compact shall be filed as a consent decree in Low Line Canal only if, prior to the dismissal of Low Line Canal as provided in Section B., of Article VII, it is finally determined in a judgment binding upon the State of Montana that the state courts lack jurisdiction over, or that the state court proceedings are inadequate to adjudicate, some or all of the water rights asserted in Low Line Canal.

C. Settlement of Water Right Claims. The water rights and other rights confirmed to the Tribe in this Compact are in full and final satisfaction of the water right claims of the Tribe and the United States on behalf of the Tribe and its members, including federal reserved water rights claims based on Winters v. United States, 207 U.S. 564 (1908). In consideration of the rights confirmed to the Tribe in this Compact, and of performance by the State of Montana and the United States of all actions required by this Compact, including entry of a final order issuing the decree of the reserved water rights of the Tribe held in trust by the United States as quantified in the Compact and displayed in Appendix 1, the Tribe and the United States as trustee for the Tribe and Tribal members hereby waive, release, and relinquish any and all claims to water rights or to the use of

water within the State of Montana existing on the date this Compact is ratified by the State, the Tribe, and Congress and conditional upon a final decree, whichever date is later.

D. Binding Effect. After the Effective Date of this Compact, its terms shall he binding:

1. Upon the State and any person or entity of any nature whatsoever using, claiming or in any manner asserting any right under the authority of the State to the use of water in the State of Montana; provided that, the validity of consent, ratification, or authorization by the State is to be determined by Montana law;

2. Upon the Tribe, Tribal members, and any person or entity of any nature whatsoever using, claiming or in any manner asserting any right to the use of the Tribe's water right, or any right arising under any doctrine of reserved or aboriginal water rights for the Tribe or a Tribal member, or any right arising under tribal law; provided that, the validity of consent, ratification or authorization by the Tribe is to be determined by tribal law; and

E. Waiver of Claims or Objections.

1. After the Effective Date of this Compact, the Tribe, any individual claiming a right to use water based on or derived from the Tribe, and the United States on behalf of the Tribe or a Tribal member, shall be prohibited from objecting to, or bringing a claim against, the claim or holder of a right to use water based on the laws of the State of Montana, and any carriage, storage, or delivery facilities and rights of way associated therewith, based on the assertion that such right is invalid because 85-2-301(4), MCA, is invalid as applied to such right, or that such right is inconsistent with or otherwise impairs any right reserved by the Tribe under Article 4 of the May 7, 1868 Treaty of Fort Laramie. If and to the extent necessary to effectuate the intent of this paragraph the Tribe, any individual claiming a right to use water based on or derived from the Tribe, and the United States on behalf of the Tribe shall be deemed to have waived and relinquished any claims or objections they may have against a holder of a right to use water based on the laws of the State of Montana, and any carriage, storage, or delivery facilities and rights of way associated therewith, based on the aforementioned law and Treaty.

2. Waiver of claims by the Tribe against the United States shall be as provided by Congress.
